Killen, W D Killen D D, 2014-05-03 The appearance of another history of the early Church requires some explanation As the progress of the Christian commonwealth for the first three hundred years has been recently described by British German and American writers of eminent ability it may perhaps be thought that the subject is now exhausted No competent judge will pronounce such an opinion During the last quarter of a century various questions relating to the ancient Church which are almost if not altogether ignored in existing histories have been earnestly discussed whilst several documents lately discovered have

thrown fresh light on its transactions There are besides points of view disclosing unexplored fields for thought from which the ecclesiastical landscape has never yet been contemplated The following work is an attempt to exhibit some of its features as seen from a new position The importance of this portion of the history of the Church can scarcely be over estimated Our attention is here directed to the life of Christ to the labours of the apostles and evangelists to the doctrines which they taught to the form of worship which they sanctioned to the organization of the community which they founded and to the indomitable constancy with which its members suffered persecution The practical bearing of the topics thus brought under review must be sufficiently obvious The Ancient Church W.
