House and Society in the Ancient Greek World Lisa C. Nevett, 2001-05-10 This 1999 book re-examines traditional assumptions about the nature of social relationships in Greek households during the Classical and Hellenistic periods. Through detailed exploration of archaeological evidence from

individual houses Lisa Nevett identifies a recognisable concept of the citizen household as a social unit and suggests that this was present in numerous Greek cities She argues that in such households relations between men and women traditionally perceived as dominating the domestic environment should be placed within the wider context of domestic activity Although gender was an important cultural factor which helped to shape the organisation of the house this was balanced against other influences notably the relationship between household members and outsiders At the same time the role of the household in relation to the wider social structures of the polis or city state changed rapidly through time with the house itself coming to represent an important symbol of personal prestige

Home Life in Ancient Greece Melanie Ann Apel,2004 This volume will give students a look at what daily life was like for the ancient Greeks Students will learn about marriage entertainment and education as well as what the role of women was in ancient Greece They will also learn about the Greek house and diet and what it was like to be a child in Greece

Ancient Greek Houses and Households Bradley A. Ault,Lisa C. Nevett,2011-01-01 Seeking to expand both the geographical range and the diversity of sites considered in the study of ancient Greek housing Ancient Greek Houses and Households takes readers beyond well established studies of the ideal classical house and now famous structures of Athens and Olynthos Bradley A Ault and Lisa C Nevett have brought together an international team of scholars who draw upon recent approaches to the study of households developed in the fields of classical archaeology ancient history and anthropology The essays cover a broad range of chronological geographical and social contexts and address such topics as the structure and variety of households in ancient Greece facets of domestic industry regional diversity in domestic organization and status distinctions as manifested within households Ancient Greek Houses and Households views both Greek houses and the archeological debris found within them as a means of investigating the basic unit of Greek society the household Through this approach the essays successfully point the way toward a real integration between material and textual data between archeology and history Contributors include William Aylward University of Wisconsin Madison Nicholas Cahill University of Wisconsin Madison Manuel Fiedler Freie Universit t Berlin Franziska Lang Humboldt Universit t Berlin Monike Tr mper Universit t Heidelberg and Barbara Tsakirgis Vanderbilt University Nashville
