Bachelors, Manhood, and the Novel, 1850-1925 Katherine V. Snyder, 1999-09-02 Katherine Snyder's study explores the significance of the bachelor narrator a prevalent but little recognised figure in premodernist and modernist fiction by

male authors including Hawthorne James Conrad Ford and Fitzgerald Snyder demonstrates that bachelors functioned in cultural and literary discourse as threshold figures who by crossing the shifting permeable boundaries of bourgeois domesticity highlighted the limits of conventional masculinity The very marginality of the figure Snyder argues effects a critique of gendered norms of manhood while the symbolic function of marriage as a means of plot resolution is also made more complex by the presence of the single man Bachelor figures made moreover an ideal narrative device for male authors who themselves occupied vexed cultural positions By attending to the gendered identities and relations at issue in these narratives Snyder s study discloses the aesthetic and political underpinnings of the traditional canon of English and American male modernism

Kaufman Funk, William Seaver Woods, 1905 **Christian Popular Culture from The Chronicles of Narnia to Duck Dynasty** Eleanor Hersey Nickel, 2021-05-13 Christian popular culture has tremendous influence on many American churchgoers. When we have a choice between studying the Bible and reading novels, downloading movies or watching television, we become less familiar with Numbers than with Narnia. This book examines popular Christian narratives with rigorous scholarly methods and assumes that they are just as complex, fascinating and worthy of investigation as the latest secular Netflix series or dystopian novel. While most scholars focus on the religious aspects of Christian texts, this study takes a new approach by analyzing their social responsibility in portraying the complex dynamics of race, class and gender in a profoundly unequal America. Close readings of six case studies: The Chronicles of Narnia, Francine Rivers's *Redeeming Love*, Jan Karon's Mitford novels, *Left Behind*, the films of the Sherwood Baptist Church, and *Duck Dynasty* uncover both harmful stereotypes and Christians serving as leaders in social justice.

Revolution and the Word : The Rise of the Novel in America Cathy N. Davidson Professor of English, Duke University, 1987-02-19 *Revolution and the Word* offers a unique perspective on the origins of American fiction, looking not only at the early novels themselves but at the people who produced them, sold them and read them. It shows how, in the aftermath of the American Revolution, the novel found a special place among the least privileged citizens of the new republic. As Cathy N. Davidson explains, early American novels, most of them now long forgotten, were a primary means by which those who bought and read them, especially women and the lower classes, moved into the higher levels of literacy required by a democracy. This very fact, Davidson shows, also made these people less amenable to the control of the gentry who naturally enough derided fiction as a potentially subversive genre. Combining rigorous historical methods with the newest insights of literacy theory, Davidson brilliantly reconstructs the complex interplay of politics, ideology, economics and other social forces that governed the way novels were written, published, distributed and understood. Davidson also shows, in almost tactile detail, how many Americans lived during the Constitutional era. She depicts the life of the traveling book peddler, the harsh lot of the printer, the shortcomings of early American schools, the ambiguous politics of novelists like Brackenridge and Tyler, and the lost lives of ordinary women like Tabitha Tenney and Patty Rogers. Drawing on a vast body of material, the novels themselves as well as reviews, inscriptions in cherished books, letters and diaries, and many other records, Davidson presents the genesis of American literature in its fullest possible context.
