The 1798 Rebellion An Illustrated History:

The 1798 Rebellion Thomas Bartlett,1998 Swept along by the rising tide of liberty that brought revolution to America and France in the late eighteenth century the 1798 Rebellion in Ireland gave birth to the idea of a new nation free of English rule The 1790 s saw the emergence of the United Irishmen the abortive French landing of 1796 on the Irish coast and the brutal government repression that followed The 1798 Rebellion itself lay at the heart of the story It included revolts in Leinster and east Ulster and a small French landing in Connacht that was too little too late Deep rooted divisions in Irish society would feed the bloody struggle and reappear even more prominently than before IN the end 20 000 people perished in Ireland s first attempt at independence In 1798 Rebellion tells the heroic and tragic story of theis fateful year in Irish history On the two hundredth anniversary of the rising the authors reexamine these tumultuous events in the context of their times and in light of things to come *Cassell's Illustrated History of England* ,1857 **The Irish Enlightenment** Michael

Brown,2016-05-02 Scotland and England produced well known intellectuals during the Enlightenment but Ireland s contribution to this revolution in Western thought has received less attention Michael Brown shows that Ireland also had its Enlightenment which for a brief time opened up the possibility of a tolerant society despite a history of sectarian conflict

Dynamics of Deep Time and Deep Place Laura Doyle, Simon Gikandi, Mwangi wa Githinji, 2025-04-10. *Dynamics of Deep Time and Deep Place* comprises one volume in an unprecedented three-volume set collectively subtitled *Decolonial Reconstellations*. Together with Volume Two *Dissolving Master Narratives* and Volume Three *Reconceiving Identities in Political Economy*, it gathers thinkers from across world regions and disciplines who reconfigure critical global thought. Collaboratively conceived, the volumes are founded on the observation that we cannot fully uproot the epistemological material violence of coercive systems nor fully re-imagine more ethical visions of planetary community without shared attention to the deeper histories of place and peoples that shape the present. Accordingly, the volumes gather social scientists and humanists, Indigenous and non-Indigenous scholars and intersectional and materialist thinkers who reconceptualize *longue durée*, history and its afterlives. They engage in the dual project to dismantle eurocentric, colonial and androcentric frameworks and to make visible the legacies of care and creative world-making that have sustained human communities. Uncovering pasts that are as complex and dynamic as the present, the contributors brilliantly transform notions of temporality, relationability, polity, conjuncture, resistance and experimentation within histories of struggle and alliance. They richly decolonize political imaginaries. The co-editors' introductions articulate fresh frameworks of deep place and deep time, freed from eurocentric modernity paradigms, indicating pathways toward decolonial collaboration and institutional change. *Decolonial Reconstellations* offers invaluable resources for researchers and teachers in decolonial, postcolonial, anti-colonial and Indigenous studies and will also strongly appeal to feminist, anti-racist, Marxist and critical theory scholars across disciplines.

Robert Burns and Transatlantic Culture Sharon Alker, Leith Davis, 2016-04-08. While recent scholarship has usefully positioned Burns within the context of British Romanticism as a spokesperson of Scottish national identity, *Robert Burns and Transatlantic Culture* considers Burns's impact in the United States, Canada and South America, where he has served variously as a site of cultural memory and of creative negotiation. Ambitious in its scope, the volume is divided into five sections that explore transatlantic concerns in Burns's own work: Burns's early publication in North America; Burns's

reception in the Americas Burns's creation as a site of cultural memory and extra literary remediations of Burns including contemporary digital representations By tracing the transatlantic modulations of the poet and songwriter and his works Robert Burns and Transatlantic Culture sheds new light on the circuits connecting Scotland and Britain with the evolving cultures of the Americas from the late eighteenth century to the present

Ireland's History Kenneth L. Campbell, 2013-12-05 Ireland's History provides an introduction to Irish history that blends a scholarly approach to the subject based on recent research and current historiographical perspectives with a clear and accessible writing style All the major themes in Irish history are covered from prehistoric times right through to present day from the emergence of Celtic Christianity after the fall of the Roman Empire to Ireland and the European Union secularism and rapprochement with the United Kingdom By avoiding adopting a purely nationalistic perspective Kenneth Campbell offers a balanced approach covering not only social and economic history but also political cultural and religious history and exploring the interconnections among these various approaches This text will encourage students to think critically about the past and to examine how a study of Irish history might inform and influence their understanding of history in general

Forgetful Remembrance Guy Beiner, 2018-11-09 Forgetful Remembrance examines the paradoxes of what actually happens when communities persistently endeavour to forget inconvenient events The question of how a society attempts to obscure problematic historical episodes is addressed through a detailed case study grounded in the north eastern counties of the Irish province of Ulster where loyalist and unionist Protestants and in particular Presbyterians repeatedly tried to repress over two centuries discomfiting recollections of participation alongside Catholics in a republican rebellion in 1798 By exploring a rich variety of sources Beiner makes it possible to closely follow the dynamics of social forgetting His particular focus on vernacular historiography

rarely noted in official histories reveals the tensions between professed oblivion in public and more subtle rituals of remembrance that facilitated muted traditions of forgetful remembrance which were masked by a local culture of reticence and silencing Throughout Forgetful Remembrance comparative references demonstrate the wider relevance of the study of social forgetting in Northern Ireland to numerous other cases where troublesome memories have been concealed behind a veil of supposed oblivion *Catalogue of the San Francisco Free Public Library, Short Titles: June 1882* San Francisco Public Library,1882 Irish Rebellion S.
