**Universities in the Marketplace** Derek Bok, 2009-02-14 Is everything in a university for sale if the price is right In this book one of America's leading educators cautions that the answer is all too often yes Taking the first comprehensive look at the growing commercialization of our academic institutions Derek Bok probes the efforts on campus to profit financially not only from athletics but increasingly from education and research as well He shows how such ventures are undermining core academic values and what universities can do to limit the damage Commercialization has many causes but it could never have grown to its present state had it not been for the recent rapid growth of money making opportunities in a more technologically complex knowledge based economy A brave new world has now emerged in which university presidents enterprising professors and even administrative staff can all find seductive opportunities to turn specialized knowledge into profit Bok argues that universities faced with these temptations are jeopardizing their fundamental mission in their eagerness to make money by agreeing to more and more compromises with basic academic values He discusses the dangers posed by increased secrecy in corporate funded research for profit Internet companies funded by venture capitalists industry subsidized educational programs for physicians conflicts of interest in research on human subjects and other questionable activities While entrepreneurial universities may occasionally succeed in the short term reasons Bok only those institutions that vigorously uphold academic values even at the cost of a few lucrative ventures will win public trust and retain the respect of faculty and students Candid evenhanded and eminently readable Universities in the Marketplace will be widely debated by all those concerned with the future of higher education in America and beyond

*Pilgrimage in the Marketplace* Ian Reader, 2013-09-11 The study of pilgrimage often centres itself around miracles and spontaneous populist activities While some of these activities and stories may play an important role in the emergence of potential pilgrimage sites and in helping create wider interest in them this book demonstrates that the dynamics of the

marketplace including marketing and promotional activities by priests and secular interest groups create the very consumerist markets through which pilgrimages become established and successful and through which the sacred as a category can be sustained By drawing on examples from several contexts including Japan India China Vietnam Europe and the Muslim world author Ian Reader evaluates how pilgrimages may be invented shaped and promoted by various interest groups In so doing he draws attention to the competitive nature of the pilgrimage market revealing that there are rivalries borrowed ideas and alliances with commercial and civil agencies to promote pilgrimages The importance of consumerism is demonstrated both in terms of consumer goods souvenirs and pilgrimage site selection rather than the usual depictions of consumerism as tawdry disjunctions on the sacred As such this book reorients studies of pilgrimage by highlighting not just the pilgrims who so often dominate the literature but also the various other interest groups and agencies without whom pilgrimage as a phenomenon would not exist

**The Marketplace of Ideas: Reform and Resistance in the American University (Issues of Our Time)** Louis Menand, 2010-12-06 Crisp and illuminating well worth reading Wall Street Journal The publication of The Marketplace of Ideas has precipitated a lively debate about the future of the American university system what makes it so hard for colleges to decide which subjects are required Why are so many academics against the concept of interdisciplinary studies From his

position at the heart of academe Harvard professor Louis Menand thinks he's found the answer Despite the vast social changes and technological advancements that have revolutionized the society at large general principles of scholarly organization curriculum and philosophy have remained remarkably static Sparking a long overdue debate about the future of American education The Marketplace of Ideas argues that twenty first century professors and students are essentially trying to function in a nineteenth century system and that the resulting conflict threatens to overshadow the basic pursuit of knowledge and truth

**Bury Me at the Marketplace** N. Chabani Manganyi, David Attwell, 2009-11-01 When Chabani Manganyi published the first edition of selected letters twenty five years ago as a companion volume to Exiles and Homecomings A Biography of Es'kia Mphahlele the idea of Mphahlele's death was remote and poetic The title Bury Me at the Marketplace suggested that immortality of a kind awaited Mphahlele in the very coming and going of those who remember him and whose lives he touched It suggested too the energy and magnanimity of Mphahlele the man whose personality and intellect as a writer and educator would carve an indelible place for him in South Africa's public sphere That death has now come and we mourn it Manganyi's words at the time have acquired a new significance in the symbolic marketplace he noted the drama of life continues relentlessly and the silence of death is unmasked for all time The silence of death is certainly unmasked in this volume in its record of Mphahlele's rich and varied life his private words his passions and obsessions his arguments his loves hopes achievements and yes even some of

his failures Here the reader will find many facets of the private man translated back into the marketplace of public memory Despite the personal nature of the letters the further horizons of this volume are the contours of South Africa s literary and cultural history the international affiliations out of which it has been formed particularly in the diaspora that connects South Africa to the rest of the African continent and to the black presence in Europe and the United States This selection of Mphahlele s own letters has been greatly expanded it has also been augmented by the addition of letters from Mphahlele s correspondents among them such luminaries as Langston Hughes and Nadine Gordimer It seeks to illustrate the networks that shaped Mphahlele s personal and intellectual life the circuits of intimacy intellectual inquiry of friendship scholarship and solidarity that he created and nurtured over the years The letters cover the period from November 1943 to April 1987 forty four of Mphahlele s mature years and most of his active professional life The correspondence is supplemented by introductory essays from the two editors by two interviews conducted with Mphahlele by Manganyi and by Attwell s insightful explanatory notes

Salman Rushdie in the Cultural Marketplace Ana Cristina Mendes, 2016-03-23 Taking up the roles that Salman Rushdie himself has assumed as a cultural broker gatekeeper and mediator in various spheres of public production Ana Cristina Mendes situates his work in terms of the contemporary production circulation and consumption of postcolonial texts within the workings of the cultural industries Mendes pays particular attention to Rushdie as a public performer across various creative platforms not only as a novelist and short story writer but also as a public intellectual reviewer and film critic Mendes argues that how a postcolonial author becomes personally and professionally enmeshed in the dealings of the cultural industries is of particular relevance at a time when the market is strictly regulated by a few multinational corporations She contends that marginality should not be construed exclusively as a basis for understanding Rushdie s work since a critical grounding in marginality will predictably involve a reproduction of the traditional postcolonial binaries of oppressor oppressed and colonizer colonized that the writer subverts Rather she seeks to expand existing interpretations of Rushdie s work itineraries and frameworks in order to take into account the actual conditions of postcolonial cultural production and circulation within a marketplace that is global in both orientation and effects

Spiritual Marketplace Wade Clark Roof, 2001-07-02 In large chain bookstores the religion section is gone and in its place is an expanding number of topics including angels Sufism journey recovery meditation magic inspiration Judaica astrology gurus Bible prophecy evangelicalism Mary Buddhism Catholicism and esoterica As Wade Clark Roof notes such changes over the last two decades reflect a shift away from religion as traditionally understood to more diverse and creative approaches But what does this splintering of the religious perspective say about Americans Have we become more interested in spiritual concerns or have we become lost among trends Do we value personal spirituality over traditional religion and no longer see ourselves united in a larger community of faith Roof first credited this religious diversity to the baby boomers in his bestselling *A Generation of Seekers* 1993 He returns to interview many of these people now in mid life to reveal a generation with a unique set of spiritual values a generation that has altered our historic interpretations of religious beliefs practices and symbols and perhaps even our understanding of the sacred itself The quest culture created by the baby boomers has generated a marketplace of new spiritual beliefs and practices and of revisited traditions As Roof shows some Americans are exploring faiths and spiritual disciplines for the first time others are rediscovering their lost traditions others are drawn to small groups and alternative communities and still others create their own mix of values and metaphysical beliefs Spiritual Marketplace charts the emergence of five subcultures dogmatists born again Christians mainstream believers metaphysical believers and seekers and secularists Drawing on surveys and in depth interviews for over a decade Roof reports on the religious and spiritual styles family patterns and moral vision and values for each of these subcultures The result is an innovative engaging approach to understanding how religious life is being reshaped as we move into the next
