Recognizing Resentment Michelle Schwarze,2020-10-22 We typically think of resentment as an unjustifiable and volatile emotion responsible for fostering the worst political divisions Recognizing Resentment argues instead that sympathy with the

resentment of victims of injustice is vital for upholding justice in liberal societies as it entails recognition of the equal moral and political status of those with whom we sympathize Sympathizing with the resentment of others makes us alive to injustice in a way no rational recognition of wrongs alone can and it motivates us to demand justice on others behalfs This book rehabilitates arguments for the moral and political worth of resentment developed by three influential thinkers in the early liberal tradition Joseph Butler David Hume and Adam Smith and uses these to advance a theory of spectatorial resentment discussing why we should be indignant about the injustice others face and how such a shared sentiment can actually bring liberal citizens closer together E. G. West James Tooley,2014-10-23 What role should government have in education This question has exercised philosophers since Plato and economists since Adam Smith It is also a question that is as relevant today as people around the world worry about standards in public government schools and governments and international agencies look to fine tune their educational policies This book describes and analyses the work of one economist Professor E G West whose life s work was focused precisely on this question His classic 1965 book Education and the State and subsequent writings inspired a new way of looking at this question Based on historical analysis of what happened in the UK and USA before governments got involved in education and supplemented with philosophical exploration of the justifications for government involvement West set out a position with only minimal state involvement James Tooley outlines West s ideas and their challenges elaborating them in terms of public choice theory and recent empirical evidence of education without the state in developing countries **The Passionate Society** Lisa Hill,2006-10-12 Adam Ferguson 1723 1816 was a major figure of the Scottish Enlightenment whose thought was in many respects original and distinctive This book is a study of his ideas and of the intellectual forces that shaped them Though somewhat overlooked in the nineteenth century Ferguson was rescued from obscurity in the first half of the twentieth century by scholars interested in the origins of sociology and early critiques of modernity Ferguson s interest in the mechanics of social life and especially social change led him to many groundbreaking insights In fact he is sometimes identified as the Father of Modern Sociology In addition to exploring whether or not he merits this title this study examines the whole of Ferguson s thought as a system and includes his moral and faculty psychology historiography theology politics and social science Ferguson is distinguished by his deep appreciation of the complexity of the human condition his study of society is based on the belief that it is not only reason but the unseen unplanned sub rational and visceral forces that keep the human universe in motion Ferguson s appreciation of this fact and his ability to make social science of it is his major achievement **Rethinking Rational Choice Theory** Jan de Jonge,2011-12-12 The marriage of neuroscience and the science of choice behaviour gave birth to neuroeconomics Jan de Jong explores this new discipline investigating the relationship between choice behaviour and brain activity and the light that this sheds on our systems of reasoning Indigenous Research of Personality from Perspectives of Globalization and Glocalization Weiqiao Fan,Frederick T.
