Literature for Young Adults Joan L. Knickerbocker,2017-03-15 Young adults are actively looking for anything that connects them with the changes happening in their lives and the books discussed throughout Literature for Young Adults have the potential to make that connection and motivate them to read It explores a great variety of works genres and formats but it places special emphasis on contemporary works whose nontraditional themes protagonists and literary conventions make them well suited to young adult readers It also looks at the ways in which contemporary readers access and share the works they re reading and it shows teachers ways to incorporate nontraditional ways of accessing and sharing books throughout their literature programs In addition to traditional genre chapters Literature for Young Adults includes chapters on literary nonfiction poetry short stories and drama cover art picture books illustrated literature and graphic novels and film It recognizes that while films can be used to complement print literature they are also a literacy format in their own right and one that young adults are particularly familiar and comfortable with The book s discussion of literary language including traditional elements as well as metafictional terms enables readers to share in a literary conversation with their students and others when communicating about books It will help readers teach young adults the language they need to articulate their responses to the books they are reading Children's Literature in the Classroom Diane M. Barone,2011-03-08 Many reading programs today overlook an essential component of literacy instruction helping children develop an enduring love of reading This authoritative and accessible guide provides a wealth of ideas for incorporating high quality children s books of all kinds into K 6 classrooms Numerous practical strategies are presented for engaging students with picturebooks fiction nonfiction and nontraditional texts Lively descriptions of recommended books and activities are interspersed with invaluable tips for fitting authentic reading experiences into the busy school day Every chapter concludes with reflection questions and suggestions for further reading The volume also features reproducible worksheets and forms Paperbound Books in Print ,1991 Celebrating 1895 John Fullerton,1998 Includes 27 of the finest papers presented at The Centenary of Cinema conference in June 1995 **The School Story** David Aitchison,2022-02-04 The School Story Young Adult Narratives in the Age of Neoliberalism examines the work of contemporary writers filmmakers and critics who reflecting on the realm of school experience help to shape dominant ideas of school The creations discussed are mostly stories for children and young adults David Aitchison looks at serious novels for teens including Laurie R. King s *Speak* and Faiza Gu ne s *Kiffe Kiffe Tomorrow* the light hearted middle grade fiction of Andrew Clements and Tommy Greenwald and Malala Yousafzai s autobiography for young readers *I Am Malala* He also responds to stories that take young people as their primary subjects in

such novels as Sapphire's *Push* and films including *Battle Royale* and *Cooties*. Though ranging widely in their accounts of young life, such stories betray a mounting sense of crisis in education around the world, especially in terms of equity: the extent to which students from diverse backgrounds have fair chances of receiving quality education and empowerment; the extent to which diverse students are encouraged to gain strength, confidence, and selfhood as learners. Drawing particular attention to the influence of neoliberal initiatives on school experience, this book considers what it means when learning and success are measured more and more by entrepreneurship, competitive individualism, and marketplace gains. Attentive to the ways in which power structures institutional routines, school spaces, and social relations operate in the contemporary school story, *The School Story* offers provocative insights into a genre that speaks profoundly to the increasingly precarious position of education in the twenty-first century.
