✓ Exclusively available on IvyPanda

The essay by Ralph Waldo Emerson called “The American Scholar” is a basis for the speech he gave in Cambridge in front of Phi Beta Kappa Society in the summer of 1837. The speech includes several parts and elaborates on the meaning and duties of the American scholar.

The essay begins with a fable about people and their multiple functions, which are supposed to be practiced by everyone equally, but there is an imbalance, so some workers become reduced only to physical labor and some – only to mental work. Further, Emerson views the scholar, or the Man Thinking, from three different aspects and explores the scholar’s relationship with nature, books, and action. In the final part of the essay, Emerson discusses the duties of the scholar.

Viewing scholars and their relationship with nature, Emerson notices that it is important to accept nature as one, without dividing it into categories and classes. The author says that the scholar should explore the nature in themselves, and “he shall see, that nature is the opposite of the soul, answering to it part for part. One is a seal, and one is print” (Emerson, par. 9). This means that the laws of nature are the laws within us, the order we see in nature is inflicted by us, and this is why it can be comprehended.

Emerson views books as the wisdom of the past, the knowledge documented by our forefathers, trying to pass the precious insights. However, in the essay, it is said that believing that the scholar’s duty is to accept the book knowledge as dogmas are wrong. This is the prerogative of a bookworm, but not the Man Thinking (Emerson, par. 14). Emerson says that book-learned people lose their connection with nature, and this is why they miss out on a lot of pure sources of information necessary for Man Thinking.

Emerson also establishes that action is another highly important aspect of the scholar’s life because it is useful for his mind. The essay says, “Action is with the scholar subordinate, but it is essential. Without it, he is not yet a man. Without it, though can never ripen into truth” (Emerson, par. 21). The author notices that only action can present the scholar with the gift of experience. He writes, “Instantly we know whose words are loaded with life, and whose not” (Emerson, par. 21).

The American Scholar Essay Summary:

The American Scholar Ralph Waldo Emerson, 2020-09-28 I greet you on the re commencement of our literary year Our anniversary is one of hope and perhaps not enough of labor We do not meet for games of strength or skill for the recitation of histories tragedies and odes like the ancient Greeks for parliaments of love and poesy like the Troubadours nor for the advancement of science like our cotemporaries in the British and European capitals Thus far our holiday has been simply a friendly sign of the survival of the love of letters amongst a people too busy to give to letters any more As such it is precious as the sign of an indestructible instinct Perhaps the time is already come when it ought to be and will be something else when the sluggard intellect of this continent will look from under its iron lids and fill the postponed expectation of the world with something better than the exertions of mechanical skill Our day of dependence our long apprenticeship to the learning of other lands draws to a close The millions that around us are rushing into life cannot always be fed on the sere remains of foreign harvests Events actions arise that must be sung that will sing themselves Who can doubt that poetry will revive and lead in a new age as the star in the constellation Harp which now flames in our zenith astronomers announce shall one day be the pole star for a thousand years

Fiebig-von Hase, Ursula Lehmkuhl, 1998-01-01 It seems to be a tenet of the human condition to perceive others as different and potentially hostile In nearly all societies stereotypes are developed to stigmatize suspected enemies within and without The American case is particularly interesting in this respect because American society consists of nothing but others to be open to others and welcome those who are different is one of the basic tenets of the country However this principle often conflicts with the need to integrate all these strangers into a homogeneous governable society which causes the formation of hostile stereotypes of certain ethnic groups that do not fit in The authors in this volume look at the development of these enemy images which form a fairly consistent pattern from the period of the American Revolution to the post World War II era In doing so they focus on the question of to what extent these enemy images influence the formulation and outcome of foreign domestic and immigration policies **The American Oxonian**, 1923 **America**, 1934 Erastus D.
