Booth, 1970 In this entertaining collection of essays Wayne Booth looks for the much maligned middle ground for reason a rhetoric that can unite truths of the heart with truths of the head and allow us all to discover shared convictions in mutual inquiry First delivered as lectures in the 1960s when Booth was a professor at Earlham College and the University of Chicago Now Don t Try to Reason with Me still resounds with anyone struggling for consensus in a world of us versus them Professor Booth s earnestness is graced by wit irony and generous humor Louis Coxe New Republic **The Clash of Ireland** , 2022-07-11 *Robert Lowell* Steven Gould Axelrod, 2015-03-08 This major interpretation of the life and art of Robert Lowell exposes the full relationship between the poetry and the personal and national experience to which it is so remarkably connected Steven Axelrod proposes that the key to our understanding of Lowell s poetic achievement lies precisely in this interpenetration of his life and his art Originally published in 1978 The Princeton Legacy Library uses the latest print on demand technology to again make available previously out of print books from the distinguished backlist of

Blood and the Covenant Pierre Parisien, 2010-11-29 Blood and the Covenant tells the story of a mindsetthe conception of a personal covenant between God and manand the insidious consequences of this mindset Author Pierre Parisien examines the history of covenantal belief and looks critically at two of its most troubling aspects appropriation the Promised Land and moral dispensation the belief that if you are doing it for God then it is not a sin but a virtuous act Parisien traces the historical consequences of the contract with God from the campaigns of Joshua in Canaan to the present manifestations of ideological Zionism He argues that the course of history has been in great part a consequence of the original Covenant and he charts the regrettable lineage of atrocities committed under the auspices of covenant fulfillmentincluding the conquest of Canaan to the hegemony of Rome the rape of Northern India by the Muslim Sultans the Crusades European colonialism which considered the entire planet as the Promised Land Manifest Destiny and ideological Zionism Wars crimes against humanity and genocide have too often been the aftermath of the Covenant Will this woeful progression ever come to an end

The Pleasures and Horrors of Eating Marion Gymnich, Norbert Lennartz, 2010 Browsing through books and TV channels we find people pre occupied with eating cooking and competing with chefs Eating and food in today s media have become a form of entertainment and art A survey of literary history and culture shows to

what extent eating used to be closely related to all areas of human life to religion eroticism and even to death In this volume early modern ideas of feasting banqueting and culinary pleasures are juxtaposed with post 18th and 19th century concepts in which the intake of food is increasingly subjected to moral theological and economic reservations In a wide range of essays various images rhetorics and poetics of plenty are not only contrasted with the horrors of gluttony they are also seen in the context of modern phenomena such as the anorexic body or the gourmandizing b te humaine It is this vexing binary approach to eating and food which this volume traces within a wide chronological framework and which is at the core not only of literature art and film but also of a flourishing popular culture
