All the Money in the World

Laura Vanderkam, 2012-03-01 How happy would you be if you had all the money in the world The universal lament about money is that there is never enough We spend endless hours obsessing over our budgets and investments trying to figure out ways to stretch every dollar We try to follow the advice of money gurus and financial planners then kick ourselves whenever we spend too much or save too little For all of the stress and effort we put into every choice why are most of us unhappy about our finances According to Laura Vanderkam the key is to change your perspective Instead of looking at money as a scarce resource consider it a tool that you can use creatively to build a better life for yourself and the people you care about For instance the average couple spends 5 000 on engagement and wedding rings making these pricey purchases largely because everyone else does But what if you decided to spend 300 on rings and apply the rest to future date nights weekend getaways and thinking of you bouquets over the next ten years In the long run what would bring more joy to your marriage Likewise will owning a home with a pristine lawn and a two car garage the American Dream really make you more satisfied Or are you saving up for this investment just because financial planners tell you it's worth it Vanderkam shows how each of us can figure out better ways to use what we have to build the lives we want Drawing on the latest happiness research as well as the stories of dozens of real people Vanderkam offers a contrarian approach that forces us to examine our own beliefs goals and values Among her advice Laugh at the Joneses It's human nature to compare yourself to those around you but you can create lifestyle that rings your personal satisfaction without copying your neighbors Give yourself the best weekend ever Studies show that experiences often bring more pleasure than material goods With a little planning and creativity you can give yourself a memorable getaway without leaving town or going broke Embrace the selfish joy of giving Giving back not only helps you build karma it also helps you build a community which is much more fulfilling than a tax deduction All the

Vs. Work Allan C. Ornstein, 2012-01-05 Wealth vs Work How 1% Victimize 99% is about the vanishing American dream growing inequality in America shrinking and struggling middle class plight of labor and unions economic decline of the nation and a broken and unstable world surrounding the U S Education is no longer the great equalizer We are heading toward a world where inherited privilege trumps excellence and meritocracy Carried far enough it means the end of striving and the American dream Few Americans realize or want to admit it Since recorded history workers have been victimized by the rich and super rich treated as fungible and disposable The early warlords and monarchs have been replaced by the titans of industry and masters of the universe on Wall Street The slaves peasants and serfs have been replaced by miners factory workers and service sector workers The GM model of the 1950s and 1960s that permitted labor to become middle class has been replaced by the Wal Mart model characterized by low pay and minimal benefits By 2025 the economic output of China and India may likely each exceed the U S Moreover the U S work force is being increasingly displaced by technology and outsourcing But we are supposed to be the lucky ones By historical and geographical accident the U S has been spared most of the world's poverty and misery Today however the U S is heading towards a financial oligarchy much worse than the aristocratic old world that our Founding Fathers feared and tried to avoid Yes the U S had a revolution but in fact it has a new and more powerful elite because the economic pie has expanded several thousand fold since the yeoman farmers status was compared to the plantation owner Right now the top 1 percent in the U S own nearly 40 percent of the nation's wealth moreover their investments capital gains and dividends are taxed at a lower rate than workers salaries Like all great civilizations that have declined before us we are a nation that needs to re-examine its ideals and institutions **Tax Evasion**
