## **World Economic Forum 201:**

The Great Reset Marc Morano, 2022-08-30 Here is the antidote to the left's sinister push to use a worldwide crisis to infuse our lives with the values of colossal statism and dystopian self-hatred all accelerated by the duplicitous manipulation of the recent pandemic From the nationally best-selling author of *The Politically Incorrect Guide to Climate Change* Welcome to 2030 I own nothing have no privacy and life has never been better This is the vision of the Great Reset according to globalist leaders While proponents of the Great Reset push slogans like Build Back Better The Fourth Industrial Revolution and A New Normal the Reset is nothing short of a rebranded Soviet system threatening to strip away property rights restrict freedom of movement and association and radically reshape our diets and way of life In *The Great Reset* Global Elites and the Permanent Lockdown bestselling author and ClimateDepot.com publisher Marc Morano unveils the origins of the Great Reset who is behind it how it is being implemented and how COVID 19 and the alleged climate emergency accelerated its imposition on the United States Packed with telling statistics and damning quotes *The Great Reset* is the essential handbook for the public the media and activists on how to critically analyze and expose the tyrannical policies silently strangling our liberties today

*The Rise of the Global Imaginary* Manfred B. Steger, 2008-07-03 Neoliberalism Neoconservatism Postmarxism Postmodernism Is there really something genuinely new about today's isms Have we moved past our traditional ideological landscape Combining political history philosophical interpretation and good old-fashioned story telling Manfred Steger traces ideology's remarkable journey from Count Destutt de Tracy's Enlightenment science of ideas to President George W. Bush's imperial globalism Rejecting futile attempts to update modern political belief systems by adorning them with prefixes the author offers instead a highly original explanation for their novelty their increasing ability to articulate deep-seated understandings of community in global rather than national terms This growing awareness of globality fuels the visions of social elites who reside in the privileged spaces of our global cities It erupts in the hopes and demands of migrants who traverse national boundaries in search of their piece of the global promise Stoked by cross-cultural encounters technological change and scientific innovation the rising global imaginary has destabilized the grand political ideologies codified during the national age The national is slowly losing its grip on people's minds but the global has not yet ascended to the commanding heights once occupied by its predecessor Still the first rays of the rising global imaginary have provided enough light to capture the contours of a profoundly altered ideological landscape Pointing in this direction the book ends with a timely interpretation of the apparent convergence of ideology and religion in the dawning global age a broad phenomenon that extends beyond the obvious cases of Christian fundamentalism and Islamic jihadism
