The Myth of Achievement Tests James J. Heckman,John Eric Humphries,Tim Kautz,2014-01-14 Achievement tests play an important role in modern societies They are used to evaluate schools to assign students to tracks within schools and to identify weaknesses in student knowledge The GED is an achievement test used to grant the status of high school graduate to anyone who passes it GED recipients currently account for 12 percent of all high school credentials issued each year in the United States But do achievement tests predict success in life The Myth of Achievement Tests shows that achievement tests like the GED fail to measure important life skills James J Heckman John Eric Humphries Tim Kautz and a group of scholars offer an in depth exploration of how the GED came to be used throughout the United States and why our reliance on it is dangerous Drawing on decades of research the authors show that while GED recipients score as well on achievement tests as high school graduates who do not enroll in college high school graduates vastly outperform GED recipients in terms of their earnings employment opportunities educational attainment and health The authors show that the differences in success between GED recipients and high school graduates are driven by character skills Achievement tests like the GED do not adequately capture character skills like conscientiousness perseverance sociability and curiosity These skills are important in predicting a variety of life outcomes They can be measured and they can be taught Using the GED as a case study the authors explore what achievement tests miss and show the dangers of an educational system based on them They call for a return to an emphasis on character in our schools our systems of accountability and our national dialogue Contributors Eric Grodsky University of Wisconsin Madison Andrew Halpern Manners Indiana University Bloomington Paul A LaFontaine Federal Communications Commission Janice H Laurence Temple University Lois M Quinn University of Wisconsin Milwaukee Pedro L Rodr guez Institute of Advanced Studies in Administration John Robert Warren University of Minnesota Twin Cities

Faith Ed Linda K. Wertheimer,2016-08-23 An intimate cross country look at the new debate over religion in the public schools A suburban Boston school unwittingly started a firestorm of controversy over a sixth grade field trip The class was visiting a mosque to learn about world religions when a handful of boys unnoticed by their teachers joined the line of worshippers and acted out the motions of the Muslim call to prayer A video of the prayer went viral with the title Wellesley Massachusetts Public School Students Learn to Pray to Allah Charges flew that the school exposed the children to Muslims who intended to convert American schoolchildren Wellesley school officials defended the course but also acknowledged the delicate dance teachers must perform when dealing with religion in the classroom Courts long ago banned public school teachers from preaching of any kind But the question remains How much should schools teach about the world s religions Answering that question in recent decades has pitted schools against their communities Veteran education journalist Linda K Wertheimer spent months with that class and traveled to other communities around the nation listening to voices on all sides of the controversy including those of clergy teachers children and parents who are Muslim Jewish Christian Sikh or atheist In Lumberton Texas nearly a hundred people filled a school board meeting to protest a teacher s dress up exercise that allowed freshman girls to try on a burka as part of a lesson on Islam In Wichita Kansas a Messianic Jewish family s opposition to a bulletin board display about Islam in an elementary school led to such upheaval that the school had to hire extra security Across the country parents have requested that their children be excused from lessons on Hinduism and Judaism out of fear they will shy away from their own faiths But in Modesto a city in the heart of California s Bible Belt teachers have avoided problems since 2000 when the school system began requiring all high school freshmen to take a world religions course Students receive comprehensive lessons on the three major world religions as well as on Sikhism Hinduism Buddhism and often Shintoism Taoism and Confucianism One Pentecostal Christian girl terrified by idols including a six inch gold Buddha learned to be comfortable with other students beliefs Wertheimer s fascinating investigation which includes a return to her rural Ohio school which once ran weekly Christian Bible classes reveals a public education system struggling to find the right
