Ancient World History ,2007 **World History** Burton F. Beers,1984 **The Patchwork of World History in Texas High Schools** Stephen Jackson,2022-11-30 This book traces the historical development of the World History course as it has been taught in high school classrooms in Texas a populous and nationally influential state over the last hundred years Arguing that the course is a result of a patchwork of competing groups and ideas that have intersected over the past century with each new framework patched over but never completely erased or replaced the author crucially examines themes of imperialism Eurocentrism and nationalism in both textbooks and the curriculum more broadly The first part of the book presents an overview of the World History course supported by numerical analysis of textbook content and public documents while the second focuses on the depiction of non Western peoples and persistent narratives of Eurocentrism and nationalism It ultimately offers that a more global accurate and balanced curriculum is possible despite the tension between the ideas of professional world historians who often de center the nation state in their quest for a truly global approach to the subject and the historical core rationale of state sponsored education in the United States to produce loyal citizens Offering a new conceptual understanding of how colonial themes in World History curriculum have been dealt with in the past and are now engaged with in contemporary times it provides essential context for scholars and educators with interests in the history of education curriculum studies and the teaching of World History in the United States *Patterns of Civilization* Burton F. Beers,1984 **Teaching Global History** Alan J. Singer,2012-04-27 Teaching Global History challenges prospective and beginning social studies teachers to formulate their own views about what is important to know in global history and why It explains how to organize the curriculum around broad social studies concepts and themes and student questions about humanity history and the contemporary world All chapters include lesson ideas a sample lesson plan with activity sheets

primary source documents and helpful charts graphs photographs and maps High school students responses are woven in throughout Additional material corresponding to each chapter is posted online at http://people.hofstra.edu/alan_j_singer The traditional curriculum tends to highlight the Western heritage and to race through epochs and regions leaving little time for an in depth exploration of concepts and historical themes for the evaluation of primary and secondary sources and for students to draw their own historical conclusions Offering an alternative to such pre packaged textbook outlines and materials this text is a powerful resource for promoting thoughtful reflection and debate about what the global history curriculum should be and how to teach it

Civilizations and Historical Patterns. An Approach to the Comparative Study of History Neagu Djuvara, 2019-06-25 And in the shadow of the major civilization before it disappeared in its turn how many other cultures have perished without a trace This immense tragedy is being lived now by many cultures with great intensity One has to belong to such a culture in course of extinction or dying slowly even before its flourishing to understand the infinite distress of those who are helplessly watching the inexorable disappearance of their most precious values With each dying culture it is a unique flower that is withering never to bloom again an incomparable fragrance that fades away forever There is in the smallest idioms there is in the Weltanschauung of the smallest tribe doomed to extinction treasures of wisdom and poetry Lost lost for all eternity In the life of peoples as in the whole Creation the most striking thing that actually shocks the mind is the infinite waste of Nature Those who at present are fortunate enough to belong to the universal cultures may still live with the illusion of their perpetuity But for how long Indeed what is left of Ancient Egypt of Mesopotamia of Crete of Mexico and of Peru And how can we be sure that our conceited race that for centuries extends its domination over peoples and things will not also fall one day in torpor and become apathetic Neagu Djuvara
