BHATTACHARYYA,2008-12-04 Poverty reduction in South Asia is a precondition for sustaining any form of reforms in governance The new public management reforms which started in South Asia from Sri Lanka taking the initiative in 1977 78 have been a decisive break from the previously practised State driven protectionist system Investment in the region has been rising and even per capita income has shown some increase yet the state has not been able to lead these reforms appropriately and efficiently Thus poverty has not been reduced ordinary people continue to languish under government programmes and the socially excluded remain outside the mainstream decision making bodies Governance in South Asia faces the single most important challenge of poverty reduction which continues to blunt and disfigure capacity self esteem and service delivery system to the poor This book attempts to bring out microlevel studies from many regions in South Asia to address issues of entrepreneurship knowledge and professionalism As an initiator of the idea on developing a critique to the

ICTs, Citizens and Governance Albert Meijer, Kees Boersma, Pieter Wagenaar, 2009 ICTs Citizens and Governance After the Hype aims to help researchers and practitioners to understand hypes about ICT and government without becoming cynical Hypes can be functional in triggering processes of change but one should be able to distinguish a trigger from a realistic set of expectations This book combines an analysis of the discourse in terms of hypes with an analysis of practices in terms of stable routines and relational patterns The relation between the discourse and resulting changing is complex situational and interpretable in multiple ways but certainly merits our attention Childhoods Gaile Sloan Cannella, Lourdes Diaz Soto, 2010 For the past 20 years a range of scholars educators and cultural workers have examined dominant discourses of childhood using critical feminist and other postmodern perspectives Located in a variety of disciplines these poststructural deconstructive and even postcolonial critiques have challenged everything from notions of the universal child to adult child dualisms to deterministic developmental theory The purpose of this volume is to acknowledge the profound contributions of that large body of literature while demonstrating the ways that critical analyses can be used to generate avenues actions that

increase possibilities for social justice for those who are younger while at the same time avoiding determinism In this time of globalization hyper capitalism and discourses that would control and disqualify through constructions like accountability we believe that projects such as this are of utmost importance The volume is divided into four major sections to reflect the multiplicity of human voices and perspectives section I contemporary circumstances and dominant discourses within which we all attempt to function sections II and III and the generation of new possibilities for constructing relationships together section IV Finally a voice from the heart within a reconceptualist social science agenda for early childhood studies is presented

Bias, 2016-04-01 In 2010 IAP released Change Transformation in Government Organizations edited by Ronald R Sims This well received volume described how organizational change methods can be used effectively to make government organizations more effective and efficient and better equipped to serve a demanding citizenry The 2010 book brought together contributions by managers practitioners academics and consultants in the study of international federal state and local government efforts to respond to increased calls for change transformation in public sector organizations Since the release of the 2010 volume calls for government transformation have continued and intensified and a number of fresh ideas and examples have been generated from the field The time is now ripe for a follow up volume laying out innovative successful ideas for transforming government

Transforming Government Organizations Fresh Ideas and Examples from the Field is that follow up volume A collection of fresh contributions such as those included in this book will add to the growing knowledge base of what does and what does not work when transformation efforts are attempted in government organizations The contributors to this new volume are experts with extensive experience as change agents in government and other organizations They provide analyses and discussions of specific cases and issues as well as practical tools ideas and lessons learned intended to guide those responsible for similar efforts in the years to come The audience for the book are government managers scholars and others interested in undertaking or learning about such efforts

e-Governance for Development S. Madon, 2009-10-29 Over the past few decades there has been a rapid proliferation of eGovernance for Development projects Drawing on evidence from three longitudinal case studies of rural eGovernance projects this book shows that improving systems of governance is fundamentally a social rather than managerial or technological activity

Sisk, Jose Roberto Solorzano, 2015-11-17 Strengthening Governance Globally is the fifth volume in the series Patterns of Potential Human Progress Each volume considers one key aspect of how development unfolds globally and how better to move it in desired directions This volume identifies the provision of security the building of government capacity and the broadening of inclusion of governance on which high income countries have traditionally made long historical transitions In contrast many developing countries today struggle with all three governance transition dimensions simultaneously Strengthening Governance Globally uses the growing empirical database on
