Crowder, 2016-03-02 Too often skeptics charge Christians with having a blind faith Unfortunately believers have added fuel to the charges of skeptics by speaking of their faith illogically But the Christian faith is not a blind faith In fact biblical faith is never a blind irrational faith Christianity rests firmly on the stone that was rejected by the builders which has become the cornerstone Jesus Christ Acts 4:11 Living biblically requires thinking biblically just as to think biblically entails to live biblically as Winfried Corduan notes in the Foreword As followers of Christ believers cannot separate biblical thinking and biblical living These two behaviors are eternally connected not only in the person of Jesus Christ but they stem from the eternal being of God the Father and his eternal truth Christ mandates that his followers love God with their entire being heart soul mind and strength Mark 12:30 How are believers to go about living out this biblical mandate Christian faith is a warranted belief This is why it is so essential that Christians recognize the value and importance of philosophy and its proper place in Christendom and in the Christian's walk Learning from Other Religious Traditions Hans Gustafson, 2018-05-16 This book brings together academic scholars from across various religious traditions to reflect on the beauty they find in traditions other than their own They examine these aspects and reflect on how they inform and constructively assist with rethinking their own religious worldviews and practices Each scholar investigates the various implications questions insights and challenges that are generated in the process of doing so Traditions discussed include satr Heathenism Buddhism Catholicism Evangelical Christianity Hinduism Islam Judaism LDS Mormon Christianity Lutheranism Presbyterianism Sikhism Sufism Western Buddhism and Zen Mahayana Buddhism Instead of focusing only or primarily on the theory and practice of interreligious dialogue this book presents living examples of learning from other religious traditions identities and persons *Religious Studies 243 : Experiencing the World's Religions. 6th Ed. Kyle Keltz, 2022-11-01 The question of whether the existence of evil in the world is compatible with the existence of an all knowing all powerful all good God has been debated for centuries Many have addressed classical arguments from evil and while recent scholarship in analytic philosophy of religion has produced newer formulations of the problem most of these newer formulations rely on a

conception of God that is not held by all theists In Bringing Good Even Out of Evil Thomism and the Problem of Evil B Kyle Keltz defends classical theism against contemporary problems of evil through the philosophy of Thomas Aquinas and his interpreters Keltz discusses Aquinas's thought on God evil and what kind of world God would make then turns to contemporary problems of evil and shows how they miss the mark when it comes to classical theism Some of the newer formulations that the book considers include James Sterba's argument from the Pauline principle J L Schellenberg's divine hiddenness argument Stephen Law's evil god challenge and Nick Trakakis's anti theodicy *Everyday Wisdom* Hans Gustafson, 2023 *Everyday Wisdom* is an introduction for lived religion interreligious studies and interfaith engagement and leadership Tying together the aims and learning objectives of interreligious studies courses the book proposes a framework for interreligious studies and interfaith leadership aiming to be a core text in undergraduate and graduate study *Max Weber's Economic Ethic of the World Religions* Thomas C. Ertman, 2017-03-24 This book brings together for the first time in English internationally recognized specialists who seek to identify what is living and what is dead in the great German social scientist Max Weber's analyses of China India and Ancient Israel found in his massive unfinished *Economic Ethic of the World Religions* In so doing the volume offers a powerful new perspective on the current debate concerning the timing of and deeper roots of the Great Divergence and more recent convergence in the economic and political development of the West on the one hand and the great civilizations of Asia on the other At the same time this volume also rebalances our understanding of Weber's entire intellectual output by returning *The Protestant Ethic and the Spirit of Capitalism* to its proper place within *Economic Ethic of the World Religions* and establishing that work as the equal of the similarly unfinished *Economy and Society*
