The Travel & Tourism Report 2008, 2008 **Surveys and Statistical Studies on International Travel** Ruth T. Blond, 1961 Trends and Issues in Global Tourism 2009 Roland Conrady, Martin Buck, 2009-11-25 As other industries the global travel and tourism industry has been facing immense challenges and highly visible upheaval since the beginning of the new millennium The International Tourism Exchange ITB Berlin the world's leading travel trade show aims at pinpointing the most important challenges identifying the trends and offering a platform to solve pressing problems The ITB Convention Market Trends Innovations has developed into a centre of excellence and a driving force for the global travel and tourism industry generating a much needed information platform This compilation unites the highlights of the convention in articles prepared by renowned professionals and scientists from the industry Readers may benefit from this comprehensive vision of the developments that are shaping the structure of the global tourism industry today and in the future This book is indispensable for tourism and travel professionals as well as for academics and students analysing current global tourism and travel trends **Tourism in the City** Nicola Bellini, Cecilia Pasquinelli, 2016-08-29 This book critically explores the interconnections between tourism and the contemporary city from a policy oriented standpoint combining tourism perspectives with discussion of urban models issues and challenges Research based analyses addressing managerial issues and evaluating policy implications are described and a comprehensive set of case studies is presented to demonstrate practices and policies in various urban contexts A key message is that tourism policies should be conceived as integrated urban policies that promote tourism performance as a means of fostering urban quality and the well being of local communities e.g. in terms of quality spaces employment accessibility innovation and learning opportunities In addition to highlighting the significance of urban tourism in relation to key urban challenges the book reflects on the risks and tensions associated with its development including the rise of anti tourism movements as a reaction to touristification cultural commodification and gentrification Attention is drawn to asymmetries in the costs and benefits of the city tourism phenomenon and the supposedly unavoidable trade off between the interests of residents and tourists is critically questioned **Tourism and Citizenship** Raoul Bianchi, Marcus Stephenson, 2014-02-24 More than sixty years since the 1948 Universal Declaration of Human Rights first enshrined the right to freedom of movement in an international charter of human rights the issue of mobility and the right to tourism itself have become increasingly significant areas of scholarly interest and political debate However despite the fact that cross border travel implies certain citizenship rights as well as the material capacity to travel the manifold intersections between tourism and citizenship have not received the attention they deserve in the literature This book endeavours to fill this gap by being the first to fully examine the role of tourism in wider society through a critically informed sociological reflection on the unfolding relationships between international tourism and distinct renderings of citizenship with particular emphasis on the ideological and political alignments between the freedom of

movement and the right to travel The text weaves its analysis of citizenship and travel in the context of addressing large scale societal transformations engendered by globalization neoliberalism and the geopolitical realignments between states as well as comprehending the internal reconfiguring of the relationship between citizens and states themselves By doing so it focuses on key themes including tourism and social citizenship rights race culture and minority rights states markets and the freedom of movement tourism peace and geo politics consumerism and class and ethical tourism global citizenship and cosmopolitanism The book concludes that the advancement of genuinely democratic and just forms of tourism must be commensurate with demands for distributive justice and a democratic politics of mobility encompassing all of humanity This timely and significant contribution to the sociology and politics of international tourism through the lens of citizenship is a must read for students and scholars in both in the fields of tourism and social science The royalties received from this book will be donated to the International Porter Protection Group
