S. Military,U. S. Marine Corps,2017-09-26 This U S Marine Corps doctrinal manual covers command and control It describes a theory and philosophy of command and control for the U S Marine Corps Put very simply the intent is to describe how we can reach effective military decisions and implement effective military actions faster than an adversary in any conflict setting on any scale In so doing this publication provides a framework for all Marines for the development and exercise of effective command and control in peace in crisis or in war This publication represents a firm commitment by the Marine Corps to a bold even fundamental shift in the way we will view and deal with the dynamic challenges of command and control in the information age The Marine Corps view of command and control is based on our common understanding of the nature of war and on our warfighting philosophy as described in Marine Corps Doctrinal Publication 1 Warfighting It takes into account both the timeless features of war as we understand them and the implications of the ongoing information explosion that is a consequence of modern technology Since war is fundamentally a clash between independent hostile wills our doctrine for

command and control accounts for animate enemies actively interfering with our plans and actions to further their own aims Since we recognize the turbulent nature of war our doctrine provides for fast flexible and decisive action in a complex environment characterized by friction uncertainty fluidity and rapid change Since we recognize that equipment is but a means to an end and not the end itself our doctrine is independent of any particular technology Taking a broad view that accounts first for the human factors central in war this doctrine provides a proper framework for designing appraising and deploying hardware as well as other components of command and control support **Small Wars Manual** United States.
