Assessing Writing to Support Learning Sandra Murphy,Peggy O'Neill,2022-11-08 In this book authors Murphy and O Neill propose a new way forward moving away from high stakes test based writing assessment and the curriculum it generates and toward an approach to assessment that centers on student learning and success Reviewing the landscape of writing assessment and existing research based theories on writing the authors demonstrate how a test based approach to accountability and current practices have undermined effective teaching and learning of writing This book bridges the gap between real world writing that takes place in schools college and careers and the writing that students are asked to do in standardized writing assessments to offer a new ecological approach to writing assessment Murphy and O Neill s new way forward turns accountability inside out to help teachers understand the role of formative assessments and assessment as inquiry It also brings the outside in by bridging the gap between authentic writing and writing assessment Through these two strands readers learn how assessment systems can be restructured to become better aligned with contemporary understandings of writing and with best practices in teaching With examples of assessments from elementary school through college chapters include guidance on designing assessments to address multiple kinds of writing integrate reading with writing and incorporate digital technology and multimodality Emphasizing the central role that teachers play in systemic reform the authors offer sample assessments developed with intensive teacher involvement that support learning and provide information for the evaluation of programs and schools This book is an essential resource for graduate students instructors scholars and policymakers in writing assessment composition and English education **Methods of Educational and Social Science Research** David R. Krathwohl,2009-02-03 As the new subtitle indicates the book emphasizes the logic of methods to provide the student a solid basis for future methodology changes enhancing the integrated approach of the previous edition Among the author s many goals are for users to understand research s contribution to knowledge building as a social process through which findings become accepted as knowledge acquire the background to read analyze and

understand research using a variety of approaches as well as the hallmarks necessary to evaluate each method and realize that the responsibility for ethical research is fundamentally theirs and that value choices are involved beginning with the choice of research problem Updates to the new edition include an extensive example of the use of the computer in the literature search and a new chapter on the reflective researcher The expanded treatment of qualitative research includes the pros and cons of using software in qualitative analysis Conceptual analysis an important concept missing from the second edition has returned by request because of its widely employed logic in both qualitative and quantitative methods The author has acknowledged the troublesome nature of the concepts internal validity and external validity and has more clearly defined these important foundational concepts as Internal Integrity and External Generality Useful tools to facilitate learning include additional reading lists important terms and concepts tips on effective research methods and hallmarks of methods application problems and exercises a glossary and an appendix on writing a research proposal A Web site is available with auxiliary learning enhancements and updates *The Publishers Weekly*, 1924 [The United States Army and Navy Journal and Gazette of the Regular and Volunteer Forces](#), 1901 **Beyond the Makerspace** Ann Shivers-McNair, 2021-06-07

Makerspaces local workshops that offer access to and training on fabrication technologies often with a focus on creativity education and entrepreneurship proliferated in the 2010s popping up in cities across the world Beyond the Makerspace is a longitudinal ethnographically informed study of a particular Seattle makerspace that begins in 2015 and ends with the closing of the space in 2018 Examining acts of making with objects tools words and relationships Beyond the Makerspace reads making as a kind of rhetoric or meaning making work and argues that acts of making things are rhetorical in the sense that they are culturally situated and that they mark boundaries of what counts as making and who counts as maker By focusing on a particular makerspace over time Shivers McNair attends to a changing cohort of makerspace regulars as they face challenges of bringing their vision of inclusivity and diversity to fruition and offers an examination of how makers are made and unmade and remade in a makerspace Beyond the Makerspace contributes not only to our understanding of making and makerspaces but also to our understanding of how to study making and meaning making more broadly in ways that examine and intervene in the marking of difference Thus the book examines what and whose values and practices we are taking up when we identify as makers or when we turn a writing classroom or a library space into a makerspace

Guide to College Writing Assessment Peggy O'Neill, Cindy Moore, Brian Huot, 2009-04-15 While most English professionals feel comfortable with language and literacy theories assessment theories seem more alien English professionals often don't have a clear understanding of the key concepts in educational measurement such as validity and reliability nor do they understand the statistical formulas associated with psychometrics But understanding assessment theory and applying it by those who are not psychometricians is critical in developing useful ethical assessments in college writing programs and in interpreting and using assessment results A Guide to College Writing Assessment is designed as an introduction and source book for WPAs department chairs teachers and administrators Always cognizant of the critical components of particular teaching contexts O'Neill Moore and Huot have written sophisticated but accessible chapters on the history theory application and background of writing assessment and they offer a dozen appendices of practical samples and models for a range of common assessment needs Because there are numerous resources available to assist faculty in assessing the writing of individual students in particular classrooms A Guide to College Writing Assessment focuses on approaches to the kinds of assessment that typically happen outside of individual classrooms placement evaluation exit examination programmatic assessment and faculty evaluation Most of all the argument of this book is that creating the conditions for meaningful college writing assessment hinges not only on understanding the history and theories informing assessment practice but also on composition programs availing themselves of the full range of available assessment practices
