## No Known Grave:

No Known Grave Maureen Jennings, 2016-05-10 From the well known author whose books inspired the wildly popular Murdoch Mysteries TV series comes the third WWII era DI Tom Tyler mystery for fans of Foyle's War wartime dramas and of course Maureen Jennings. It's summer 1942 and after a tough couple of years DI Tom Tyler is making a fresh start in Ludlow Shropshire. On the outskirts of town St Anne's Convalescent Hospital, staffed by nursing sisters who are Anglican nuns, has been established in an old manor house to help victims of the war to recover. After a horrifying double murder is discovered on the grounds, Tyler must figure out how the crime could have occurred in such a secluded and presumably impenetrable place where most of the patients are unable to walk or are blind or both, not to mention deeply traumatized. To add to the puzzle, Tyler begins almost immediately to receive mysterious letters recounting terrible crimes far away. He realizes that he is not only seeking the murderer but that the horrors of the war are closing in on this place that was meant to be a refuge. Maureen Jennings, beloved author of the Murdoch novels that inspired the popular TV series known as *The Artful Detective* in the US, surpasses herself in this vivid portrayal of wartime Britain, brilliantly blending a classic murder mystery with a deeply human story of how the effects of war live on far from the fields of battle. *Fatal Charge at Gallipoli* John

Hamilton, 2015-04-30 Armed only with rifles, bayonets and raw courage, the men of the 3rd Light Horse Brigade left the shelter of their rocky trenches to storm The Nek, a narrow stretch of ridge held by the Ottoman Turks. The first wave of attackers were cut down almost as soon as they stood up. Those that followed knew they were going to die. Yet they too charged without question, stumbling over the bodies of their fallen comrades before they also fell. The commander of the 10th Light Horse Regiment attempted to have the third wave cancelled, claiming that the whole thing was nothing but bloody murder, but he could not convince the Brigade Major. Using the letters and diaries of those who fought and died in this famously futile action, award-winning journalist and best-selling author John Hamilton takes the reader on a journey from the rush to recruit in August 1914 when war was declared through the training camps to the unforgiving terrain of Gallipoli and the unbending Turkish defenders and finally to that fateful morning and that fatal charge. Part of a trilogy by John Hamilton, this title was first published in 2004 by Pan Macmillan Australia, only being sold in the Australian and New Zealand markets under the title *Goodbye Cobber, God Bless You: The Fatal Charge of the Light Horse, Gallipoli, August 7th 1915*. **Finding**

**the Fallen** Andy Saunders, 2011-12-27 The author of *Finding the Few* presents more stories of lost airmen and the dedicated detective work done to find them. Mysteries involving missing aircrew span almost the entire twentieth century. Starting with a reappraisal of the famed story of pilot Edward Mick Mannock, the author of this book highlights the fates of RAF, USAF and Luftwaffe personnel from bomber, reconnaissance and fighter crews. Each case is examined with a microscopic and forensic approach worthy of a CSI episode and evaluates the detective work involved in unraveling these long unsolved disappearances of lost airmen. In many cases, there is a satisfactory conclusion in which family members can feel some

closure while in others question marks are left hanging over These fascinating stories remind us of the heroic ongoing efforts to truly live up to the phrase no man left behind Includes photos *The Government of No One* Ruth Kinna,2019-08-01 The standard book on anarchism for the twenty first century Written with brio quiet insight and clarity Carl Levy A magisterial study of the history and theory of one of the most controversial political movements Anarchism routinely gets a bad press It is usually seen as meaning chaos and disorder or even nothing at all And yet from Occupy Wall Street to Pussy Riot Noam Chomsky to David Graeber this philosophical and political movement is as relevant as ever Contrary to popular perception different strands of anarchism from individualism to collectivism do follow certain structures and a shared sense of purpose a belief in freedom and working towards collective good without the interference of the state In this masterful sympathetic account political theorist Ruth Kinna traces the tumultuous history of anarchism starting with thinkers and activists such as Peter Kropotkin and Emma Goldman and through key events like the Paris Commune and the Haymarket affair Skilfully introducing us to the nuanced theories of anarchist groups from Russia to Japan to the United States *The Government of No One* reveals what makes a supposedly chaotic movement particularly adaptable and effective over centuries and what we can learn from it **Nineteenth Century and After** ,1927 **Bullecourt 1917** Paul Kendall,2010-09-15 In the spring of 1917 the Arras offensive was begun to break the stalemate of the Western Front by piercing the formidable German defences of the Hindenburg Line The village of Bullecourt lay at the southern end of the battle front and the fighting there over a period of six weeks from 11 April until late May 1917 epitomised the awful trench warfare of World War I In *Bullecourt 1917* Paul Kendall tells the stories of the fierce battles fought by three British and three Australian divisions in an attempt to aid Allenby's Third Army break out from Arras Approximately 10 000 Australian and 7 000 British soldiers died many of whom were listed as missing and have no known grave The battle caused much consternation due to the failure of British tanks in supporting Australian infantry on 11 April but despite the lack of tank and artillery support the Australian infantry valiantly fought their way into the German trenches It took a further six weeks for British and Australian infantry to capture the village This book tells the story of this bitter battle and pays tribute to the men who took part Crucially Paul Kendall has contacted as many of the surviving relatives of the combatants as he could to gain new insight into those terrible events on the Hindenburg Line *In the Footsteps of the Red Baron* Mike O'Connor,Norman Franks,2005-02-19 Manfred von Richthofen became a fighter pilot on the Western Front in August 1916 By January 1917 Richthofen had shot down fifteen aircraft had been appointed commander of his own unit He painted the fuselage of his Albatros D III a bright red and was nicknamed the Red Baron In June 1917 Richthofen was appointed commander of the German Flying Circus Made up of Germany's top fighter pilots this new unit was highly mobile and could be quickly sent to any part of the Western Front where it was most needed Richthofen and his pilots achieved immediate success during the air war over Ypres during August and September Manfred von Richthofen was killed on 21st April 1918 Richthofen had destroyed 80 allied aircraft the highest

*Remembering Asia's World War Two* Mark R. Frost, Daniel Schumacher, Edward Vickers, 2019-03-27 Over the past four decades East and Southeast Asia have seen a proliferation of heritage sites and remembrance practices which commemorate the region's bloody conflicts of the period 1931-45. *Remembering Asia's World War Two* examines the origins, dynamics and repercussions of this regional war memory boom. The book analyzes the politics of war commemoration in contemporary East and Southeast Asia. Featuring contributions from leading international scholars, the chapters span China, Japan, Malaysia, Hong Kong and Singapore, covering topics such as the commemoration of the Japanese military's comfort women system, forms of dark tourism or commemorative pilgrimages e.g. veterans' tours to wartime battlefields and the establishment and evolution of various war-related heritage sites and museums. Case studies reveal the distinctive trajectories of new and newly discovered forms of remembrance within and across national boundaries. They highlight the growing influence of non-state actors over representations of conflict and occupation as well as the increasingly interconnected and transnational character of memory making. Taken together, the studies collected here demonstrate that across much of Asia, the public commemoration of the wars of 1931-45 has begun to shift from portraying them as a series of national conflicts with distinctive local meanings to commemorating the conflict as a common pan-Asian or even global experience. Focusing on non-textual vehicles for public commemoration and considering both the local and international dimensions of war commemoration within *Remembering Asia's World War Two* will be a crucial reference for students and scholars of History, Memory Studies and Heritage Studies as well as all those interested in the history, politics and culture of contemporary Asia.

**Burying the Enemy** Tim Grady, 2025-04-29 A fascinating and moving history of the British and German war dead buried on enemy soil in the two world wars Why do societies only remember their own national war dead Today the enemy dead might be largely hidden from view but this wasn't always the case During both world wars Germans and Britons died in their thousands in enemy territory From Berlin to Bath London to Leipzig civilian communities buried the enemy in the closest parish churchyard Perhaps surprisingly local people embraced these graves often caring for them with considerable tenderness Tim Grady explores the history of this curious aspect of postwar community He reveals how as the two states moved bodies to new military cemeteries local people protested at the disturbance of the dead and ties between the bereaved families and those who cared for the graves were severed forever With the enemy out of sight and mind the British and Germans concentrated solely on commemorating their own war dead and their own sacrifices Today's insular public memory of the world wars was only made possible by clearing away signs of the enemy allowing people to tell themselves much simpler narratives of the recent past as a result
