No Country A Novel:

Post-Westerns Neil Campbell, 2020-04-01 During the post World War II period the Western like America's other great film genres appeared to collapse as a result of revisionism and the emergence of new forms. Perhaps however as theorists like Gilles Deleuze suggest it remains simply maintaining its empty frame. Yet this frame is far from empty as *Post Westerns* shows us rather than collapse the Western instead found a new form through which to scrutinize and question the very assumptions on which the genre was based. Employing the ideas of critics such as Deleuze, Jacques Derrida and Jacques Rancière, Neil Campbell examines the haunted inheritance of the Western in contemporary U.S. culture. His book reveals how close examination of certain postwar films including *Bad Day at Black Rock*, *The Misfits*, *Lone Star*, *Easy Rider*, *Gas Food Lodging*, *Down in the Valley* and *No Country for Old Men* reconfigures our notions of region and nation, the Western and indeed the West itself. Campbell suggests that post Westerns are in fact ghost Westerns haunted by the earlier form's devices and styles in ways that at once acknowledge and call into question the West both as such and in its persistent ideological framing of the national identity and values.

The Scourges of the South? Essays on "The Sickly South" in History, Literature, and Popular Culture Thomas Ærvold Bjerre, Beata Zawadka, 2014-10-17 In this book eleven scholars take their stand on the controversial issue of disease as it occurs in the context of the American South. Playing on the popular vision of the South as an ill region on several levels, the European and American contributors interpret various aspects of the regional sickly culture as not so much southern problems but rather southern opportunities or else springboards to yet another of the South's cultural revitalizations. As Thomas Ærvold Bjerre and Beata Zawadka note in their introduction, the so-called Healthy South has never been an easy topic for scholars dealing with the region. One reason for this is that researchers have been taught to approach so formulated a topic no further than to the point when it turns out it is a contradiction in terms and indeed there is much in southern history and the present situation that justifies such an approach. This volume however comprises a collective effort of southernist historians, literature experts and culture critics to transcend the contradictory concept of the Healthy South and does so by reinventing the notion of the southern disease and consequently the role of the South as a scourge in American culture in terms of this culture's bountiful gift.

Charlotte Riddell's City Novels and Victorian Business Silvana Colella, 2016-03-22 In spite of the popularity she enjoyed during her lifetime Charlotte Riddell 1832 1906 has received little attention from scholars Silvana Colella makes a strong case for the relevance of Riddell's novels as narrative experiments that shed new light on the troubled experience of Victorian capitalism Drawing on her impressive knowledge of commerce and finance Riddell produced several novels that narrate the fate of individuals manufacturers accountants entrepreneurs City men and their female companions who pursue the liberal dream of self determination in the unstable world of London business Colella situates novels such as *Too Much Alone* *George Geith* *The Race for Wealth* *Austin Friars* and *The Senior Partner* in the broader cultural context examining business manuals commercial biographies and essays to highlight Victorian constructions of the business ideal and the changing cultural status of the City of London Combining historicist and formalist readings Colella charts the progression of Riddell's imaginative commitment to the business world focusing on the author's gendered awareness of the promises and disenchantments associated with the changing dynamics of capitalist modernisation Her book enriches our understanding of Victorian business culture the literary history of capitalism and the intersections of gender genre and economics

Imagining Inclusive Society in Nineteenth-Century Novels Pam Morris, 2004-06-08 In *Imagining Inclusive Society in Nineteenth Century Novels* Pam Morris traces a dramatic transformation of British public consciousness that occurred between the Reform Acts of 1832 and 1867 This brief period saw a shift from a naturalized acceptance of social hierarchy to a general imagining of a modern mass culture Central to this collective revisioning of social relations was the pressure to restyle political leadership in terms of popular legitimacy to develop a more inclusive mode of discourse within an increasingly heterogeneous public sphere and to find new ways of inscribing social distinctions and exclusions Morris argues that in the transformed public sphere of mid nineteenth century Britain the urbane code of civility collapsed under the strain of the conflicting interests that constitute mass society It was replaced by a code of sincerity often manipulative and always ideological in that its inclusiveness was based upon a formally egalitarian assumption of mutual interiorities The irresistible movement toward mass politics shifted the location of power into the public domain Increasingly national leaders sought to gain legitimacy by projecting a performance of charismatic sincerity as a flattering and insinuating mode of address to mass

audiences Yet by the latter decades of the century while the code of sincerity continued to dominate popular and political culture traditional political and intellectual elites were reinscribing social distinctions and exclusions They did so both culturally by articulating sensibility as skepticism irony and aestheticism and scientifically by introducing evolutionist notions of sensibility and attaching these to a rigorous disciplinary code of bodily visibility Through an intensive intertextual reading of six key novels Brontë's *Shirley* Thackeray's *Henry Esmond* Dickens's *Bleak House* and *Our Mutual Friend* Gaskell's *North and South* and Eliot's *Romola* and an array of Victorian periodicals and political essays Morris analyzes just how actively novelists engaged in these social transformations Drawing on a wide range of literary cultural and historical thinkers Jürgen Habermas Michel Foucault Benedict Anderson Mary Poovey and Charles Tilly Morris makes an original and highly sophisticated contribution to our understanding of the complex and always contested processes of imagining social inclusiveness

Legal Realisms Christine Holbo, 2019-08-01 United States historians have long regarded the U S Civil War and its Reconstruction as a second American revolution Literary scholars however have yet to show how fully these years revolutionized the American imagination Emblematic of this moment was the post war search for a Great American Novel a novel fully adequate to the breadth and diversity of the United States in the era of the Fourteenth Amendment While the passage of the Reconstruction Amendments declared the ideal of equality before the law a reality persistent and increasing inequality challenged idealists and realists alike The controversy over what full representation should mean sparked debates about the value of cultural difference and aesthetic dissonance and it led to a thoroughgoing reconstruction of the meaning of realism for readers writers politics and law The dilemmas of incomplete emancipation which would damage and define American life from the late nineteenth century onwards would also force novelists to reconsider the definition and possibilities of the novel as a genre of social representation *Legal Realisms* examines these transformations in the face of uneven developments in the racial ethnic gender and class structure of American society Offering provocative new readings of Mark Twain Henry James William Dean Howells Helen Hunt Jackson Albion Tourgée and others Christine Holbo explores the transformation of the novel's distinctive modes of social knowledge in relation to developments in art philosophy law politics and moral theory As *Legal Realisms* follows the novel through the worlds of California Native American removal and the Reconstruction era South of the Mississippi valley and the urban Northeast this study shows how violence prejudice and exclusion haunted the celebratory literatures of national equality but it demonstrates as well the way novelists representation of the difficulty of achieving equality before the law helped Americans articulate the need for a more robust concept of social justice

Representing (Post)Human Enhancement Technologies in Twenty-First Century US Fiction Carmen Laguarda-Bueno, 2022-10-07 This work studies three twenty first century novels by Richard Powers Dave Eggers and Don DeLillo as representative of a new trend of US fiction concerned with the topic of the technological augmentation of the human condition The different chapters provide from the double perspective of the optimistic transhumanist philosophy and

the more balanced approach of critical posthumanism an overview of the narrative strategies used by the writers to explore the possibilities that biotechnology digital technologies and cryonics open up to transcend our human limitations while also warning their readers of their most nefarious consequences Ultimately the book puts forward the claim that even if the writers approach the subject from a variety of perspectives and using different narrative styles and techniques they all share a critical posthumanist fear that an unrestrained and unquestioned use of technology for enhancement purposes may bring about disembodiment and dehumanization
