E. Wilmer, 2011-11-01 Native performance is a multifaceted and changing art form as well as a swiftly growing field of research Native American Performance and Representation provides a wider and more comprehensive study of Native performance not only its past but also its present and future Contributors use multiple perspectives to look at the varying nature of Native performance strategies They consider the combination and balance of the traditional and modern techniques of performers in a multicultural world This collection presents diverse viewpoints from both scholars and performers in this field both Natives and non Natives Important and well respected researchers and performers such as Bruce McConachie Jorge Huerta and Daystar Rosalie Jones offer much needed insight into this quickly expanding field of study This volume examines Native performance using a variety of lenses such as feminism literary and film theory and postcolonial discourse Through the many unique voices of the contributors major themes are explored such as indigenous self representations in performance representations by nonindigenous people cultural authenticity in performance and representation and cross fertilization between cultures Authors introduce important though sometimes controversial issues as they consider the effects of miscegenation on traditional customs racial discrimination Native women s position in a multicultural society and the relationship between authenticity and hybridity in Native performance An important addition to the new and growing field of Native performance Wilmer s book cuts across disciplines and areas of study in a way no other book in the field does It will appeal not only to those interested in Native American studies but also to those concerned with women s and gender studies literary and film studies and cultural studies The Encyclopaedic Dictionary Robert Hunter, 1896 The National Magazine , 1886 New Illustrated Edition of Dr. Webster's Unabridged Dictionary of All the Words in the English Language Noah Webster, 1864 Captivity & Sentiment Michelle Burnham, 2000-10-03 In a radically new interpretation and synthesis of highly popular 18th and 19th century genres Michelle Burnham examines the literature of captivity and using Homi Bhabha s concept of interstitiality as a base provides a valuable redescription of the ambivalent origins of the US national narrative Stories of colonial captives sentimental heroines or fugitive slaves embody a binary division between captive and captor that is based on cultural national or racial difference but they also transcend these pre existing antagonistic dichotomies by creating a new social space and herein lies their emotional power Beginning from a simple question on why captivity particularly that of women so often inspires a sentimental response Burnham examines how these narratives elicit

both sympathy and pleasure The texts carry such great emotional impact precisely because they traverse those very cultural national and racial boundaries that they seem so indelibly to inscribe Captivity literature like its heroines constantly negotiates zones of contact and crossing those borders reveals new cultural paradigms to the captive and ultimately the reader
