Components and Audio Speakers

41

ONKYO**HTX-22HDX Ultra-Compact HD Home Theater System**

Movies and games look great on today's widescreen TVs, but the audio from a typical flat-panel display leaves a lot to be desired. With its basic 5.1-channel configuration, the HTX-22HDX gives you a center subwoofer and four speakers plus two front speakers for stunning mid- and high-range audio. Three HDMI 1.4 inputs let you hook up a Blu-ray player, console, and cable/satellite tuner. HDMI 1.4 is not only compatible with upcoming 3D video, it also lets you run an Audio Return Channel from your display's tuner back to the receiver. The HTX-22HDX handles HD formats from DTS and Dolby, offers four distinct audio modes for gaming, and includes Onkyo's very own Theater-Dimensional effect, which creates an immersive and convincing surround effect through just 2.1 channels. On-screen display makes it easy to adjust settings on the fly.

**HT-S3300****5.1-Channel 660W Home Theater System**

A future-ready receiver and speaker package that won't break the bank, the 5.1-channel HT-S3300 is packed with so much advanced technology that it resembles entry-level home theater. It features three HDMI v1.4 inputs for hook up a Blu-ray player, game console, and cable/satellite box—which can be output via a single cable to a high-res display, not only is HDMI 1.4 compatible with next-generation 3D video, it also enables a convenient Audio Return Channel. The HT-S3300 supports codecs for HD audio formats from Dolby and DTS. It also provides an over-the-shoulder On-Screen Display function for easy adjustment of settings; a Universal Port for one-cable connection of peripherals; Audyssey equalization; four gaming audio modes; and a fully immersive, beautifully balanced 5.1-channel speaker set.

..... **Call or Log-in****HT-S5300****7.1-Channel 780W Home Theater System**

At the heart of this 7.1-channel system is the 6/7 receiver sporting four of the latest HDMI 1.4 inputs—enough for all your high-def sources. HDMI 1.4 brings compatibility with 3D video and an Audio Return Channel. With the HT-S5300, you can also adjust settings on the fly with a handy over-the-shoulder display. The receiver offers a broad range of connectivity options, such as a front input for portable devices and a Universal Port for one-cable connection of the included Dock for iPhone/iPod. High-quality Burr-Brown DACs ensure precise analog conversion of all digital audio sources, including HD audio formats from Dolby and DTS. And Dolby® Pro Logic® II gives you the option of a new height-channel set-up with the included 7.1-channel speaker package.

..... **Call or Log-in****HT-S6300****7.1-Channel 960W Home Theater System**

The HT-S6300 features four HDMI 1.3a inputs to handle 1080p video as well as Dolby TrueHD and DTS-HD Master Audio™—two lossless decoding formats carried by Blu-ray Disc (BD) that enable delivery of a 24-bit-bit soundtrack identical to the studio master track. The receiver also handles two "lossy" audio formats: Dolby® Digital Plus, which is designed to accompany high-definition video, and DTS-HD High Resolution Audio™, which offers a greater bit rate, a higher sampling rate, and more channels than the core. Compatibility with Dolby Pro Logic II gives you the option of incorporating front height channels into your home theater set-up. Another BD-related technology is DTS-HD Express, which provides access to secondary audio features. A proprietary Universal Port allows single-cable connection of the included Dock for the iPod or an optional Doreo DPH+ Radio tuner.

..... **Call or Log-in****HT-S9100THX****THX® Integrated System Plus™ Certified 7.1-Channel Home Theater System**

The HT-S9100THX is the first THX® Integrated System Plus Certified system to handle full high-definition processing of 1080p video and the master quality of Dolby® TrueHD and DTS-HD Master Audio™. Whichever input you choose—whether gaming movies, broadcast or video—the HT-S9100THX does as a receiver of precise amplification power to create a breathtaking home entertainment experience. With video upscaling, revolutionary audio equalization and acoustic treatment technologies, and integrated control with leading display brands, the HT-S9100THX is a full-scope solution for most home environments.
