Finkelstein, 2020-05-05 In *Beyond Chutzpah* Norman Finkelstein moves from an iconoclastic interrogation of the new anti-Semitism to a meticulously researched exposé of the corruption of scholarship on the Israel Palestine conflict especially in the work of Alan Dershowitz Pointing to a consensus among historians and human rights organizations on the factual record Finkelstein argues that so much controversy continues to swirl around the conflict because apologists for Israel contrive it This paperback edition includes a new preface examining recent developments in the Israel Palestine conflict and the misuse of anti-Semitism and a new chapter analysing the controversy surrounding Israel's construction of the West Bank wall

America's War Machine James McCartney, Molly Sinclair McCartney, 2015-10-27 A veteran Washington reporter reveals how years of military slanted domestic and foreign policy have turned the U S into a perpetual war machine When President Dwight D Eisenhower prepared to leave the White House in 1961 he did so with an ominous message for the American people about the disastrous rise of the military industrial complex Fifty years later the complex has morphed into a virtually unstoppable war machine one that dictates U S economic and foreign policy in a direct and substantial way Based on his experiences as an award winning Washington based reporter covering national security James McCartney presents a compelling history from the Cold War to present day that shows that the problem is far worse and far more wide reaching than anything Eisenhower could have imagined Big Military has become too big to fail and has grown to envelope the nation's political cultural and intellectual institutions These centers of power and influence including the now complicit White House and Congress have a vested interest in preparing and waging unnecessary wars The authors persuasively argue that not one foreign intervention in the past 50 years has made us or the world safer With additions by Molly Sinclair McCartney a fellow journalist with 30 years of experience *America's War Machine* provides the context for today's national security state and explains what can be done about it

Propaganda, Communication and Empire Sumanth Inukonda, Oliver Boyd-Barrett, Lara Martin Lengel, 2025-04-22 This volume interrogates the mediatized politics of western intervention in Afghanistan to gain a deeper understanding of the occupation within the broader transition toward a multipolar global order Accurate histories of western interventions and regional realities are often obscured or even eclipsed in the accounts of western mainstream media which if anything tend to rue the withdrawals and lionize the suffering of returning troops This volume investigates the state's role in the dark underbelly of the shortsighted interventionist media narrative as well as the dehumanizing portrayals of people living in the Afghanistan Pakistan region In its opening section the book critically evaluates the narrative of the Global War on Terror as well as the wars launched after 9 11 that destabilized the Middle East The chapters in the following section contextualize developments in Afghanistan with a historical framework that will problematize linear narratives that are mobilized in support of interventions The chapters in the final section represent specific aspects of the geopolitical and humanitarian consequences that have eluded mainstream media workers including journalists and Hollywood moviemakers This book will be of interest to students of propaganda studies media and
