The Dirty South James A. Crank, 2023-11-15 The Dirty South examines the shifting significances of the South as a constructed fantasized region in the American psyche particularly its frequent association with tropes of dirt that emphasize soil garbage trash grit litter mud swamp water slime and pollution Beginning with iconic works from the 1970s such as Deliverance and The Texas Chainsaw Massacre James A Crank traces the image of a dirty South into the twenty first century to explore the social political and psychological effects of the region's hold on the imaginations of southerners and nonsoutherners alike With a focus on media forms through which southern identity gets articulated and questioned including horror movies Swamp Thing comics and popular music by artists such as Waylon Jennings and OutKast The Dirty South probes the sustained fascination with southern dirtiness while reflecting on its causes and consequences since the end of the civil rights era Highlighting the period from 1970 to 2020 during which the South began to represent several new possible identities for the nation as a whole and for the area itself Crank considers the ways that southerners have used depictions of dirt to create and police boundaries and to contest those boundaries Each chapter pairs prominent literary or cultural texts from the 1970s with more contemporary works such as Jordan Peele's film Get Out which recycle similar investments or critically challenge the inherent whiteness of the earlier images By historicizing fantasies of the region and connecting them to the first decades of the twenty first century The Dirty South reveals that notions about southern dirtiness proliferate not because they lend authenticity or relevancy to the U S South but because they aid so conspicuously in the zombified work of tethering investors real and imagined to a graveyard of ideas *Champion Leaders: Pursuing Excellence to Win* Joyce C.

Entrepreneurship & Management Manjunath V.S.,2010-09 **The Banking Sector in Ghana: Issues in Relation to Current Reforms** Edmund Benjamin-Addy,2013-05-22 For in recent times a lot of banks have rated Ghana a good

destination to extend their operations in the competition in the banking industry has heightened. To ensure that banks maintain adequate working capital the industry regulator i.e the Bank of Ghana issued a directive instructing all commercial banks to ensure that by the close of December 2012 their operating capitals do not fall below GH¢60million. At the close of December 2011 almost all foreign banks had complied. However some of the local banks are sensing serious limitation in meeting the order. Therefore the study has the objective to identify the challenges these banks have to face and thereby the author will recommend avenues for raising funds to meet the proposed capital requirement. This study is based on six banks that operate in the Accra business district namely the National Investment Bank (NIB), the Ecobank Ghana Ltd, the Prudential Bank, the Ghana Commercial Bank, the Merchant Bank Ghana and the Zenith Bank. Primary data was obtained by soliciting views from bank officials on questions as the following: Which challenges confront Ghanaian Banks in their cash mobilization efforts? How could the banks generate more funds from the Ghana Stock Exchange? What efforts were made to secure funding from strategic investors? How could they reduce operating cost to enhance working capital? The second data set is based on financial statements and brochures of the banks. There was a direct approach to officers of these banks whose job description included liquidity adequacy or assets liability management. The questionnaire technique was adopted as the ideal research instrument. Moreover the data was analyzed by means of SPSS application, TOPAZ and further the resulting charts and graphs were featured.
