A History of Epidemiologic Methods and Concepts Alfredo Morabia, 2013-11-11 Methods just as diseases or scientists have their own history It is important for scientists to be aware of the genesis of the methods they use and of the context in which they were developed A History of Epidemiologic Methods and Concepts is based on a collection of contributions which appeared in SPM International Journal of Public Health starting in January 2001 The contributions focus on the historical emergence of current epidemiological methods and their relative importance at

different points in time rather than on specific achievements of epidemiology in controlling plagues such as cholera tuberculosis malaria typhoid fever or lung cancer The papers present the design of prospective and retrospective studies and the concepts of bias confounding and interaction The compilation of articles is complemented by an introduction and comments by Prof Alfredo Morabia which puts them in the context of current epidemiological research English as an Additional Language in the Early Years Malini Mistry,Krishan Sood,2015-05-08 With the English as Additional Language EAL population growing rapidly it is essential that settings and schools meet individual learner needs and provide an inclusive culture where different languages cultures and religions are accepted and celebrated Packed with essential information on key theories and best practice and written in a highly readable style this book aims to raise awareness of main issues and offer practical support for practitioners working with children with EAL Covering a wide range of topic such as new arrivals working with parents assessment planning resourcing play communication and language each chapter clearly lays out the key concepts ideas and strategies alongside examples of good practice Encouraging a reflective approach the book features Checklists diagrams chapter objectives and summaries and suggestions for further reading Case studies to illustrate practice Reflective activities to develop critical thinking Challenging many assumptions and stereotypes about EAL learners this invaluable text will support students and practitioners in meeting the individual needs of all the children in their care The Haunted Study P. J. Keating,2012-10-04 The Haunted Study a rare example of a work of literary history that is genuinely interdisciplinary explores how the leading novelists of the late Victorian and Edwardian periods came to develop so many of the attitudes that are now generally accepted as characteristically modern The writing of fiction is not treated as though it exists in some kind of isolation but is shown to be intimately related to other forms of social activity Conrad James Meredith and their immediate modernist successors Joyce Lawrence and Woolf may now seem to be set apart in a variety of crucial ways from say Ouida and Marie Corelli or even Gissing Wells and Bennett but all of them worked within the same rapidly changing society and were unavoidably influenced by its dominant economic political and cultural concerns These influences were not peripheral but central and formative They profoundly affected the creation of a commercially fragmented culture as well as the nature of fiction within that culture The Haunted Study covers an exceptionally large number of authors from the critically despised to the critically admired and examines the impact on their work of such factors as the professionalisation of literature the earning power of authors the emergence of new kinds of readers and disturbingly present throughout the whole period fundamental democratic change Sustaining Cathedrals Leslie J. Francis,Stephen G. Parker,2025-09-01 In an age when churches seem to be struggling and new initiatives remain fragile cathedrals are displaying signs of resilience The field of cathedral studies has emerged to test the sustainability of this resilience This volume draws together the work of 19 individuals who are shaping the field of cathedral studies intent on describing what they see and keen to identify what could be Together they position cathedrals at the heart of Anglican ecclesiology and maintain that properly supported cathedrals

serve as episcopal theological resource churches where sacred space and common ground collide Here faithful disciples can be nurtured and sustained and here the low threshold welcomes in the hungry crowds whom the disciples are called for feed and to nurture Insightful and thought provoking this book will be of interest to practitioners scholars and students of religious studies cathedral studies theology and sociology The chapters in this book were originally published in the Journal of Beliefs Values

The Future of Digital Data, Heritage and Curation Fiona R. Cameron,2021-03-30 The Future of Digital Data Heritage and Curation critiques digital cultural heritage concepts and their application to data developing new theories curatorial practices and a more than human museology for a contemporary and future world Presenting a diverse range of case examples from around the globe Cameron offers a critical and philosophical reflection on the ways in which digital cultural heritage is currently framed as societal data worth passing on to future generations in two distinct forms digitally born and digitizations Demonstrating that most perceptions of digital cultural heritage are distinctly western in nature the book also examines the complicity of such heritage in climate change and environmental destruction and injustice Going further still the book theorizes the future of digital data heritage curation and the notion of the human in the context of the profusion of new types of societal data and production processes driven by the intensification of data economies and through the emergence of new technologies In so doing the book makes a case for the development of new types of heritage that comprise AI automated systems biological entities infrastructures minerals and chemicals all of which have their own forms of agency intelligence and cognition The Future of Digital Data Heritage and Curation is essential reading for academics and students engaged in the study of museums archives libraries galleries archaeology cultural heritage management information management curatorial studies and digital humanities

The Spiritual Magic of Dolls Najah Lightfoot,2025-11-03 Dolls have been beloved companions and instruments of magic for millennia They are among the most ancient Egyptian and Roman artifacts Not only playthings for children they also provide lifelong comfort and companionship In the twentieth and twenty first centuries dolls developed therapeutic uses especially for traumatized children and people with dementia But dolls also possess a long history as a tool of divination witchcraft and the occult In The Spiritual Magic of Dolls Najah Lightfoot bridges these two uses companionship and magic to enable readers to develop profound magical and spiritual relationships with their own dolls Many have beloved dolls displayed on shelves or sitting in boxes What if you could do more with them Najah Lightfoot shows you how Perhaps you still have favorite childhood dolls or have been gifted with a doll or inherited one from a relative or friend Many people are extremely attached to one or more dolls this book teaches you how to take that attachment to the next level Najah Lightfoot teaches how to develop a magical and spiritual relationship with your dolls Najah writes This book is crafted written for the magical practitioner or the person who has a love of dolls who would like to learn how to bring them comfortably lovingly into a working and familial relationship The Spiritual Magic

of Dolls seeks to connect readers to the love of dolls especially dolls that may have had a hard life before they ended up coming into the lives of the reader It is written for those who find themselves drawn to dolls and wish to be closer to them in magical loving ways
