Andrew Jones, 2006-09-07 Publisher description *ThirdWay*, 2001-08 Monthly current affairs magazine from a Christian

perspective with a focus on politics society economics and culture      **With Power Comes Responsibility** Maeve McKeown,2024-02-08 What is structural injustice and who ultimately bears responsibility for it In answering these questions Maeve McKeown goes beyond the widely accepted narrative of unintended consequences and blameless participation to explain how power and responsibility truly function in today s world Drawing on case studies from sweatshops to climate change McKeown identifies three types of structural injustice the pure and unintended accumulation of disparate activities the avoidable injustice that could be ameliorated by the powerful but nevertheless continues the deliberate perpetuation of structural processes that benefit powerful political and economic agents In each of these the role of power is different which changes the allocation of responsibility From this understanding we can shape a deeper more sophisticated idea of how structural injustice operates and what we as individuals can do about it What is the political responsibility of ordinary individuals How can ordinary individuals with very little power pressure morally responsible powerful agents to address structural injustice Do we have the same responsibility for historical injustice as we do for that which we see in today s world This is fundamental reassessment of the relationship between power ordinary people and responsibility for structural injustice      **All Politics Is Global** Daniel W. Drezner,2008-08-18 Has globalization diluted the power of national governments to regulate their own economies Are international governmental and nongovernmental organizations weakening the hold of nation states on global regulatory agendas Many observers think so But in All Politics Is Global Daniel Drezner argues that this view is wrong Despite globalization states especially the great powers still dominate international regulatory regimes and the regulatory goals of states are driven by their domestic interests As Drezner shows state size still matters The great powers the United States and the European Union remain the key players in writing global regulations and their power is due to the size of their internal economic markets If they agree there will be effective global governance If they don t agree governance will be fragmented or ineffective And paradoxically the most powerful sources of great power preferences are the least globalized elements of their economies Testing this revisionist model of global regulatory governance on an unusually wide variety of cases including the Internet finance genetically modified organisms and intellectual property rights Drezner shows why there is such disparity in the strength of international regulations      **The New Utopian Politics of Ursula K. Le Guin's The Dispossessed** Laurence Davis,Peter G. Stillman,2005-01-01 The Dispossessed has been described by political thinker Andre Gorz as The most striking description I know of the seductions and snares of self managed communist or in other words anarchist society To date however the radical social cultural and political ramifications of Le Guin s multiple award winning novel remain woefully under explored Editors Laurence Davis and Peter Stillman right this state of affairs in the first ever collection of original essays devoted to Le Guin s novel Among the topics covered in this wide ranging international and interdisciplinary collection are the anarchist ecological post consumerist temporal revolutionary and open ended utopian politics of The Dispossessed The book concludes with an essay by Le Guin written specially for this

volume in which she reassesses the novel in light of the development of her own thinking over the past 30 years Creative Globalization Stéphane Callens, 2018-09-05 The purpose of this book is to draw up a picture of the transformations in the innovation systems induced by globalization or globalized innovation We understand the latter as the existence of new macroeconomic solidarities These are attested since about the middle of the 1980s with the observation of a tripolar world drawn up by Kenichi Ohmae The book intends to explain all theories of globalization as well as to clarify its relations with innovation It constitutes an unprecedented synthesis on this theme illustrated by examples from many sectors of activity

**Threads** Jane L. Collins, 2009-11-15 Americans have been shocked by media reports of the dismal working conditions in factories that make clothing for U S companies But while well intentioned many of these reports about child labor and sweatshop practices rely on stereotypes of how Third World factories operate ignoring the complex economic dynamics driving the global apparel industry To dispel these misunderstandings Jane L Collins visited two very different apparel firms and their factories in the United States and Mexico Moving from corporate headquarters to factory floors her study traces the diverse ties that link First and Third World workers and managers producers and consumers Collins examines how the transnational economics of the apparel industry allow firms to relocate or subcontract their work anywhere in the world making it much harder for garment workers in the United States or any other country to demand fair pay and humane working conditions Putting a human face on globalization Threads shows not only how international trade affects local communities but also how workers can organize in this new environment to more effectively demand better treatment from

their distant corporate employers      **Crisis and Contagion** Ian McKay, 2023-10-17 Crisis and Contagion is a selection of fourteen interviews conducted by Ian McKay of the Wilson Institute at McMaster University Interviews with Nancy Fraser Mike Davis Mack Penner Andreas Malm and Merrill Singer explore capitalism's organic crisis and the ways it has made this and future pandemics inevitable Nora Loreto Tithi Bhattacharya Chandrima Chakraborty Merlin Chowkwanyun and Sanjay Nepal discuss the experiences of ordinary people in the pandemic J Michael Ryan Laura Spinney Naomi Klein and Noam Chomsky explore the long term effects and likely historical legacy of a pandemic that has changed millions of lives and maybe the trajectory of human civilization These scholars propose that to understand the impact of Covid 19 we have to understand the conflictual history of capitalism and to ward off future pandemics we need to start building a post capitalist alternative to the disease generating and highly unequal global neoliberal order As capitalist forces work to shove what we have learned from the Covid 19 pandemic down the memory hole Crisis and Contagion offers a must read for those wanting to seize this moment of change and revolution      *Media Unlimited, Revised Edition* Todd Gitlin, 2007-09-18 A balanced yet biting critique Gitlin is a savvy guide to our increasingly kinetic times San Francisco Chronicle In this original look at our electronically glutted speed addicted world Todd Gitlin evokes a reality of relentless sensation instant transition and nonstop stimulus which he argues is anything but progress He shows how all media all the time fuels celebrity worship paranoia and irony and how attempts to ward off the onrush become occasion for yet more media Far from bringing about a new information age Gitlin argues the digital torrent has fostered a society of disposable emotions and casual commitments and threatens to make democracy a sideshow In a new afterword Gitlin takes measure of the most recent wave of inundation in the form of iPods blogs and YouTube Both a startling analysis and a charged polemic Media Unlimited reveals the unending stream of manufactured images and sounds as a defining feature of our civilization and a perverse culmination of Western hopes for freedom      Brave New Neighborhoods Margaret Kohn, 2004-07-19 Fighting for First Amendment rights is as popular a pastime as ever but just because you can get on your soapbox doesn't mean anyone will be there to listen Town squares have emptied out as shoppers decamp for the megamalls gated communities keep pesky signature gathering activists away even most internet chatrooms are run by the major media companies Brave New Neighborhoods considers what can be done to protect and revitalize our public spaces
