#### Problem Solving

Teresa wanted to paint each face of a cube so that the adjacent faces (the faces next to each other) were different colors. She wanted to use fewer than six different colors. What is the least number of colors she could use? Describe how the cube could be painted.

#### NEW CONCEPTS

##### Adding and subtracting decimal numbers and whole numbers

Here we show two ways to write three dollars.

\$3      \$3.00

We see that we may write dollar amounts with or without a decimal point. We may also write whole numbers with or without a decimal point. In any number written with a decimal point, the decimal point follows the ones place. Here are several ways to write the whole number three:

3      1      1.0      1.00

As we will see in the following examples, it may be helpful to write a whole number with a decimal point when adding and subtracting with decimal numbers.
