Anna Rhodes, Max Besbris

Sba Life Sciences Grade 1october 2014:

Soaking the Middle Class Anna Rhodes,Max Besbris,2022-07-15 Extreme weather is increasing in scale and severity as global warming worsens While poorer communities are typically most vulnerable to the negative effects of climate change even well resourced communities are increasingly vulnerable as climate related storms intensify Yet little is known about how middle class communities are responding to these storms and the resulting damage In **Soaking the Middle Class** sociologists Anna Rhodes and Max Besbris examine how a middle class community recovers from a climate related disaster and how this process fosters inequality within these kinds of places In 2017 Hurricane Harvey dropped record breaking rainfall in Southeast Texas resulting in more than 125 billion in direct damages Rhodes and Besbris followed 59 flooded households in Friendswood Texas for two years after the storm to better understand the recovery process in a well resourced majority White middle class suburban community As such Friendswood should have been highly resilient to storms like Harvey yet Rhodes and Besbris find that the recovery process exacerbated often invisible economic inequality between neighbors Two years after Harvey some households were in better financial positions than they were before the storm while others still had incomplete repairs were burdened with large new debts and possessed few resources to draw on should another disaster occur Rhodes and Besbris find that recovery policies were significant drivers of inequality with flood insurance playing a key role in the divergent recovery outcomes within Friendswood Households with flood insurance prior to Harvey tended to have higher incomes than those that did not These households received high insurance payouts enabling them to replace belongings hire contractors and purchase supplies Households without coverage could apply for FEMA assistance which offered considerably lower payouts and for government loans which would put them into debt Households without coverage found themselves exhausting their financial resources including retirement savings to cover repairs which put them in even more financially precarious positions than they were before the flood The vast majority of Friendswood residents chose to repair and return to their homes after Hurricane Harvey Even this devastating flood did not alter their plans for long term residential stability and the structure of recovery policies only further oriented homeowners towards returning to their homes Prior to Harvey many Friendswood households relied on flood damage from previous storms to judge their vulnerability and considered themselves at low risk After Harvey many found it difficult to assess their level of risk for future flooding Without strong guidance from federal agencies or the local government on how to best evaluate risk many residents ended up returning to potentially unsafe places As climate related disasters become more severe **Soaking the Middle Class** illustrates how inequality in the United States will continue to grow if recovery policies are not fundamentally changed

Redefining Rich Shannon Hayes,2021-08-10 2022 NATIONAL INDIE EXCELLENCE AWARD FINALIST
BUSINESS ENTREPRENEURSHIP SMALL BUSINESS 2022 AXIOM BOOK AWARD BRONZE MEDALIST
ENTREPRENEURSHIP SMALL BUSINESS NAUTILUS BOOK AWARD SILVER WINNER BUSINESS LEADERSHIP Redefining

Rich is inspiring thought provoking and highly recommended both as a fascinating story in its own right and as a call to reconsider what one truly aspires to in life Midwest Book Review In our dysfunctional economy success often comes at great personal cost we're tired we're stressed out and we have no time for family and friends It's time to redefine rich From a third generation farmer and successful entrepreneur Redefining Rich is an entrepreneur's guide to balancing work and family with the pleasures of the good life with simple exercises and important lessons to serve everyone from the new sole proprietor to a seasoned CEO Shannon Hayes was in the final months of her PhD program recently engaged and beginning to plan her future Having grown up on a northern Appalachian sheep farm she had two advantages a hard won education and hillbilly pragmatism But when it came time to enter the job market Hayes made a tough discovery the economy just doesn't work It doesn't work for women for free thinkers for the working class or for white collar professionals It doesn't work in rural America much less in the cities and the suburbs It forces us to choose between career and family profit and creativity So Hayes and her husband walked away from their career paths and chose to forge a life on her family's frost plagued mountain farm starting up a small cafe in town Together they found their sweet spot a place where the Appalachian farm culture and sensibilities she and her community have lived by helped them thrive even in a tough economic environment Against the odds the Hayes family built a business that lets them live abundantly spend time with family and enjoy the gifts of nature And the business even helped reinvigorate their chronically economically depressed town But the journey to this point was rife with challenges tumbles and mistakes With humor lively stories and assurance Hayes reveals the best lessons she's learned for taking an alternate path whether it lies in rural America in the burbs or the heart of the city She outlines the fundamentals of sustainable wealth how to develop income streams get organized bring family into the business ask for fair prices and market efficiently and the most important lesson of all set personal boundaries and say no even while sustaining relationships Hayes shows entrepreneurship is the means to build sustainable communities keep families together and foster great creative fulfillment Redefining Rich will comfort instruct amuse and inspire those of us who are trying to make our lives work in untraditional ways [More Than Pretty Boxes](#) Carrie M. Lane, 2024-11-21 This study of organizing and decluttering professionals helps us understand and perhaps alleviate the overwhelming demands society places on our time and energy For a widely dreaded often mundane task organizing one's possessions has taken a surprising hold on our cultural imagination Today those with the means can hire professionals to help sort and declutter their homes In More Than Pretty Boxes Carrie M Lane introduces us to this world of professional organizers and offers new insight into the domains of work and home which are forever entangled especially for women The female dominated organizing profession didn't have a name until the 1980s but it is now the subject of countless reality shows podcasts and magazines Lane draws on interviews with organizers including many of the field's founders to trace the profession's history and uncover its enduring appeal to those seeking meaningful flexible self directed work Taking readers behind the scenes of real life organizing sessions More Than

Pretty Boxes details the strategies organizers use to help people part with their belongings and it also explores the intimate empathetic relationships that can form between clients and organizers But perhaps most importantly More Than Pretty Boxes helps us think through an interconnected set of questions around neoliberal work arrangements overconsumption emotional connection and the deeply gendered nature of paid and unpaid work Ultimately Lane situates organizing at the center of contemporary conversations around how work isn't working anymore and makes a case for organizing's radical potential to push back against the overwhelming demands of work and the home too often placed on women's shoulders Organizers aren't the sole answer to this crisis but their work can help us better understand both the nature of the problem and the sorts of solace support and solutions that might help ease it Corporate Caffeine Dacia Coffey, 2022-04-06 Our busy world is killing the art of communication and in the B2B world it's even worse We have faster better and cheaper ways to reach our target market yet less than 60% of B2B salespeople hit their sales quota Worse the gnashing of teeth from CEOs and CFOs around the world can be heard after listening to marketing metrics that can't be translated into business impact The gap between buyer seller and marketer has become the business world's Bermuda triangle of lost opportunities lost profits and lost growth And now in a post COVID world business relationships and communication will never be the same This complex world requires a return to simple yet profound fundamentals of human communication It's time for a new map to navigate marketing and sales in a complicated and noisy world That map has arrived *Congressional Record* United States Congress, 2009 The Congressional Record is the official record of the proceedings and debates of the United States Congress It is published daily when Congress is in session The Congressional Record began publication in 1873 Debates for sessions prior to 1873 are recorded in The Debates and Proceedings in the Congress of the United States 1789-1824 the Register of Debates in Congress 1824-1837 and the Congressional Globe 1833-1873 *Who's Who in the South and Southwest, 1986-1987*, 1986-08 **Who's who in Finance and Business**, 2008 Who's who in the Midwest, 2003 *Who's who in America*, 1995
