Perspectives on Literacy Eugene R. Kintgen, Barry M. Kroll, Mike Rose, 1988 The 28 essays reprinted here are arranged in four sections that offer theoretical historical educational and community perspectives on the whole topic of literacy In addition to their substantial introduction the editors provide an exhaustive bibliography based on the citations to the essays Kintgen Kroll and Rose see literacy as an extremely complex area of inquiry in which all aspects are interrelated and they hope to avoid creating or perpetuating false boundaries within the field The book's first section contains articles dealing with various psychological and economic consequences of literacy The second provides an introduction to the development of literacy in different eras of the West from its inception among the Greeks to the teaching of it in North America during the past century The third section treats the teaching of literacy in educational institutions primarily at the secondary and post secondary levels The final section discusses literacy outside the traditional classroom the development of literacy among children and adults the functions and uses of literacy in the workplace and elsewhere and the identity and problems of those who have not mastered literacy skills
