Don't Throw Away 26 Extras

John W. Bate, the efficiency engineer, has created for us a model motor-car plant.

It covers 45 acres. The buildings are new, all designed by Mr. Bate. They are equipped with 2092 up-to-date machines.

In the past six years, by investing \$5,000,000, he has cut our factory costs in two.

Now 98 per cent of this Mid-Year Mitchell is built in this model plant. It is built for much less than other factories could build it.

Get the Results

Part of the saving shows in the Mitchell price. No other car of this size, power, and grade sells so low as this does.

Part of the saving pays for 26 extras, which other cars omit.

See these extras at your Mitchell show room. Judge what they mean to you. Note how you would miss them.

All of them are wanted. But all are costly. And factories less efficient cannot afford to include them.

Exclusive Values

This Mid-Year Mitchell is the only car with Bate cantilever springs. This makes it—as your dealer will prove—the easiest riding car in the world.

It is the only car in its class with oversize, ball-bearing steering parts. That makes it by far the easiest car to drive.

It holds, we believe, the endurance records. Six Mitchell cars have averaged 164,372 miles each. That's more than 30 years of ordinary service.

It is the only car with 440 drop forgings and steel stampings—tough and light—in place of heavy, brittle castings.

And it is the car which engineers select. Your dealer has a list of 37 noted engineers—men who stand at the top—who have selected the Mitchell for their personal car.

Every man who keeps up on motor cars should inspect this Mid-Year Mitchell.
