Popular Music Autobiography

Oliver Lovesey, 2021-12-02 The 1960s saw the nexus of the revolution in popular music by a post war generation amid demographic upheavals and seismic shifts in technology Over the past two decades musicians associated with this period have produced a large amount of important autobiographical writing This book situates these works in the forms of formal autobiographies and memoirs auto fiction songs and self fashioned museum exhibitions within the context of the recent expansion of interest in autobiography disability and celebrity studies It argues that these writings express anxiety over

musical originality and authenticity and seeks to dispel their writers celebrity status and particularly the association with a lack of seriousness These works often constitute a meditation on the nature of postmodern fame within a celebrity obsessed culture and paradoxically they aim to regain the private self in a public forum *Silhouettes of Scripture* David B. Schreiner, Drew S. Holland, 2023-06-12 The contextual approach and form criticism are two well established methodologies in Biblical Studies but the natural affinities between the two have historically gone under appreciated Yet the substantial reconsideration of classic tenets of form criticism that has transpired in recent memory has further separated these two like minded methods Through a series of case studies that carefully consider certain Old Testament texts contextually *Silhouettes of Scripture* Considering the Contextual Approach with Form criticism considers important methodological critiques and fuse elements of both methods in order to not only re focus natural affinities but also more precisely define how contextual studies could proceed Initiated by a literary trigger Schreiner and Holland s method navigates between what has been called parallelomania and parallel anonia to consider a range of similarities and differences in terms of broad and narrow convergences The result is a work that not only looks upon well known parallels with fresh eyes but also seeks to establish new trajectories
