Ten Assessment Literacy Goals for School Leaders Stephen Chappuis, Steve Chappuis, Susan M. Brookhart, Jan Chappuis, 2021-04-21 Of all school related factors that influence student learning only classroom instruction has greater impact than leadership And leaders have the greatest impact when they set direction citing that the goals and purpose they provide serves to strengthen and solidify the faculty The ten competencies for school leaders described in this book are based on a few factors First standards driven reform has created new knowledge requirements and responsibilities for school leaders In today s systems sorting students along a bell curve and artificially creating winners and losers has been replaced by a mission that all students must learn well Instead of a curriculum focused on what a teacher should teach the curriculum identifies what students must know and be able to do These standards are public and communicate what a state or district values when it comes to student learning Assessing the standards day to day not through large scale accountability tests or even local short cycle or common assessments is a requirement for effective standards based reform Second is the reward of improved student learning brought about by the use of classroom assessment for learning Assessment for learning has implications not just for school leaders but also for broader educational practice The research is conclusive and improved learning lies within the grasp of anyone wishing to apply it What does it look like when school leaders demonstrate mastery of the Ten Assessment Competencies Included in the book are examples learning activities and opportunities for practice as well as success indicators for each competency as leaders work toward mastery 32 *Quick & Fun Content Area Computer Activities* Lynn Van Gorp, 2006 Incite Grades 6-8 students enthusiasm to learn using technology in the curriculum Youll enhance learning and encourage high order thinking by incorporating a technology project for every week of the school year Students will develop key technology skills in word processing spreadsheets multimedia presentations and using the Internet while you teach regular classroom content Lessons are divided among content areas and the flexible projects are great for computer centers labs or one computer classrooms The easy to follow teacher instructions and step by step student directions make this resource a hit in the classroom The included Teacher Resource CD contains sample projects templates and assessment rubrics 160pp

Quin Gonell,2023-07-04 A concise and practical guide to bringing the day to day practice of restorative justice programs into closer alignment with restorative values In the past twenty five years there has been an explosion of programs projects and initiatives that use the terms restorative justice or restorative practices This reflects multiple trends the failures and inhumanity of justice system policies and practices the unfairness and ineffectiveness of zero tolerance and other punitive

measures adopted in our schools and the positive impact of those who have promoted restorative practices for the past several decades around the world This complex mix has generated an array of programs that utilize restorative ideas and practices in a wide variety of ways such as court diversion deeply spiritual circle work and national and international truth and reconciliation projects Some of these programs are designed to address incidences of harm that fall within large systems family group conferencing victim offender dialogue circles COSA etc or in schools where they are often focused on addressing incidences of harm in an effort to change the over reliance on suspensions and expulsions as a way to modify student behaviors There are other experiments in restorative justice that move this work into community settings with a focus on healing and the creation of more empathic relationships As the authors know from experience there is often a gap between values and the reality of day to day practice This Little Book strives to find ways to shrink that gap and to bring our practice and the structures and methods that employ them into closer alignment with restorative values Simply put this book asks how can we better align restorative theory and practice in our work In order to have truly restorative programs programs that strive for consistency between their stated values and their real life practices the authors offer some ways to integrate restorative practices and values into the strategies used to design implement and assess them They propose the use of another transformative practice Participatory Action Research PAR as a powerful ally in the work of developing restorative practices and the programs that hold them
