the media shape the public's character and values Bogart concludes that a world of new communications technology requires a coherent national media policy respectful of the American tradition of free expression and subject to vigorous public scrutiny and debate

Congress. House. Committee on the Judiciary. Subcommittee on Courts, Intellectual Property, and the Internet,2014 *TV Finales FAQ* Stephen Tropiano,Holly Van Buren,2015-11-01 FAQ TV Finales FAQ is the first book devoted exclusively to television's most memorable series finales From Mary Richards heartfelt goodbye to the WJM TV newsroom in the classic finale of The Mary Tyler Moore Show to the puzzling conclusion of the enigmatic adventure series Lost to the tumultuous final hours in the life of Breaking Bad's Walter White TV Finales FAQ takes an up close insightful and entertaining look at the most memorable final episodes of television's most popular prime time daytime and late night series Crafting the final episode to a long running television series can be challenging for producers and writers who want to remain faithful to the show's characters and history yet at the same time satisfy the high expectations of its loyal fan base TV Finales FAQ offers television viewers the inside story on the creation broadcast and aftermath of the most famous and infamous final episodes of over 50 television series from the 1960s through the present day The book features such shows as Dexter Roseanne Will Grace X Files The Sopranos and some classic talk and late night programs such as The Oprah Winfrey Show and The Tonight Show Starring Johnny Carson and many others **Meta Television** Erin Giannini,2024-03-18 The idea of metatextuality is frequently framed as a recent television development and often paired with the idea that it represents genre exhaustion US television however with its early live performances and set bound sitcoms always suggested an element of self awareness that easily shaded into metatextuality even in its earliest days Meta Television thus traces the general history of US television's metatextuality throughout television's history arguing that TV's self awareness is nothing new and certainly not evidence of a period of aesthetic exhaustion but instead is woven into both its past and present practice elucidated through case studies featuring series from the 1970s to the present day many of which have not been critically analyzed before and the various ways they deploy metatext to both construct and deconstruct their narratives Further Meta Television asserts that this re and de construction of narrative and production isn't just a reward to the savvy and or knowledgeable viewer or consumer but seeks to make broader points about the media we consume and how

we consume it This book explores the ways in which the current metatextual turn in both the usual genres in which it appears horror and sci fi fantasy and its movement into drama and sitcom represents the next turn in television s inherent self awareness It traces this element throughout television s history growing from the more modest reflexivity of programs awareness of themselves as created objects in a particular medium to the more significant breaking of the fictive illusion and therefore the perceived distance between the audience and the series Erin Giannini shows how the increased currency of metatextual television in the contemporary era can be tied to a viewership well versed in its stories and production as well as able and willing to talk back via social media If television reflects culture to a certain extent this increased reflexivity mirrors that responsive audience as a consequence of the lack of distance that metafiction embraces As Robert Stam traced the use and implications of reflexivity in film and literature this book does the same for television further problematizing John Ellis s glance theory in terms of both production and spectatorship New York Magazine ,1987-02-16 New York magazine was born in 1968 after a run as an insert of the New York Herald Tribune and quickly made a place for itself as the trusted resource for readers across the country With award winning writing and photography covering everything from politics and food to theater and fashion the magazine s consistent mission has been to reflect back to its audience the energy and excitement of the city itself while celebrating New York as both a place and an idea
