New Approaches to Ruskin, 2016 **New Approaches to Ruskin (Routledge Revivals)** Robert Hewison, 2014-11-13 The study of Ruskin's work and influence is now a feature of several critical disciplines *New Approaches to Ruskin* first published in 1981 reflects this gathering some of the most distinguished writers on Ruskin and joining them with others who have undertaken significant research in the field of Ruskin studies The authors were all specially commissioned for this volume and were chosen to represent as wide a variety of approaches as possible to this key figure of nineteenth century culture This book is ideal for students of art history *Work and Wealth (Routledge Revivals)* J. A. Hobson, 2010-10-04 First published in 1914 and reissued with a new introduction in 1992 *Work and Wealth* is a seminal vision of Hobson's liberal utopian ideals which desired to demonstrate how economic and social reform could transform existing society into one in which the majority of the population as opposed to a small elite could find fulfillment Hobson attacked conventional economic wisdom which made a division between the cost of production and the utility derived from consumption Far from being necessarily arduous Hobson argued that work had the potential to bring about immense utility and enrichment The qualitative humanist work argues in favour of a new form of capitalism to minimise cost and maximise utility *Culture, Participation and Policy in the Municipal Public Park* Abigail Gilmore, 2024-01-12 This book concerns the values and practices of participation in municipal public parks and the connections they have with cultural policy urbanism and social life Adopting a critical cultural policy lens it identifies the park as a mundane but extraordinarily treasured place for the production and exchange of cultural values regulation resistance and the practising of citizenship Drawing on extensive mixed methods research on everyday participation in diverse local cultural ecosystems in England and Scotland the book examines the social lives of parks and their users and the important public values that are generated through their common stewardship and usership It presents case studies of parks and co located museums as cultural public spheres which promote both commoning and commodification These are contextualized by histories of municipal parkmaking from the nineteenth century to the present and related to the making of local government and to other civic and cultural institutions The book highlights contemporary issues of austerity marketisation and de municipalisation within local government in the context of urban development It positions the public park as fundamental to democratic cultural governance and makes the case for the primacy of public trust ownership and park equity in safeguarding the right to the city *Charlotte Mary Yonge* Clare Walker Gore, Clemence Schultze, Julia Courtney, 2022-11-28 This interdisciplinary collection of essays explores the life and work of Charlotte M Yonge a highly influential and popular nineteenth century writer who is emerging from a long period of critical neglect Its wide ranging chapters capture the scope and quality of current work in Yonge studies addressing the full range of her prolific literary output from her best selling novels to her nature writing biographies and letters Considering themes from gender disability and empire to Tractarianism secularism and the idea of progress these essays

consider how Yonge reflected and shaped the tastes ideas and anxieties of her readers and contemporaries Exploring her key role in the Anglican revival her importance as a test case in the development of feminist criticism and her formal innovativeness as a novelist this collection places Yonge centrally in the nineteenth century literary landscape and demonstrates her ongoing relevance to scholars and students of the period *The Autobiography of a Nation* Becky Conekin,2003-06-28 The first full length study on the 1951 Festival of Britain **Gothic Revival Architecture in Ireland** Douglas Scott Richardson,1983 [New Approaches to Ruskin](#) Robert Hewison,1981 **British Book News** British Council,1982 Includes no 53a British wartime books for young people *The Vital Science (Routledge Revivals)* Peter Morton,2014-08-01 In this title first published in 1984 Peter Morton argues that in late Victorian Britain a group of novelists and essayists quite consciously sought and found ideas in post Darwinian biology that were susceptible to imaginative transformation The period between 1860 and 1900 was a time of great confusion in biology the natural selection hypothesis was in retreat before its acute critics and no extension of evolutionary theory to human affairs was too bizarre to attract its quota of enthusiasts Writers capitalised on this prevailing uncertainty and used it to their own artistic or polemic ends A fascinating and interdisciplinary title this reissue will interest students of late Victorian literature as well as historians of biological theory between *The Origin of Species* and Mendel **People's History and Socialist Theory (Routledge Revivals)** Raphael Samuel,2016-05-12 First published in 1981 this book brings together different types of work by numerous fragmented groups in the field of Marxist history and puts them in dialogue with each other It takes stock of then recent work explores the main new lines and looks at the political and ideological circumstances shaping the direction of historical work past and present The scope of the book is international with contributions on African history fascism and anti fascism French labour history and the transition from feudalism to capitalism It also incorporates feminist history and gives attention to some of the leading questions raised for social history by the women s movement *Da ruína ao edifício: neogótico e preservação na Inglaterra* Meneguello,2008 **Manuscript Illumination in the Modern Age** Sandra Hindman,Mary and Leigh Block Museum of Art,2001 How medieval manuscripts were understood in the 19th and 20th centuries is the basis for this volume co written by four art historians Hindman Northwestern U Michael Camille U of Chicago Rowan Watson Victoria and Albert Museum and Nina Rowe Block Museum Northwestern U The attitudes [I. Scarborough, 2022-06-14 As a man thinks so is he Personally and socially so is he Yet if this is true then as a man thinks has led us into the thick of global crisis What exactly is it about our thinking that fails us What has gone so wrong There are firm reasons why we may hope for new direction Firstly we have a new view of the connectedness of all things Never before has this encompassed so much It makes a crucial difference to philosophy Secondly when we recast philosophy s high level concepts in more concrete terms it becomes possible to discuss them without confusion This is the method of this book There is much of interest for the theologian too Legendary film director Ingmar Bergman once wrote What will happen to us who want to believe but can not His can not had to do with what Professor Karen Barad calls the hegemony of physics *Everything Briefly* details why it is impossible in fact to believe in a closed universe of cause and effect **Ruskin's Artists** Robert Hewison, 2017-11-22 This was first published in 2000 A study of John Ruskin s engagement with art and architecture as a critic a patron and a teacher It offers insights into both his writings and the visual economy of the Victorian world Each essay examines Ruskin s relationship with an individual artist or a distinct aspect of art practice J M W Turner D G Rossetti W Holman Hunt and E Burne Jones are among those artists discussed whose personal relationships with Ruskin affected his

Political Change David E. Apter, 2012-11-12 Published in the year 1973 Political Change is a valuable contribution to the field of Politics The problem in the social sciences has been to improve the quality of the relationship between the creative and didactic sides and produce more interesting and verifiable hypotheses and propositions The literature dealing with this problem has grown and become increasingly technical This collection of essays are between creativity and didactics Some are experiments in the mind as it were plundering history for purpose Others seek criteria for a politics of development Still others are more analytical seeking criteria for theory as in the articles on political studies and on political systems In all however there is a common thread the creation and use of intermediate categories and their applications to real life historical or contemporary development situations
