The Oxford History of the Novel in English Cyrus R. K. Patell, Deborah Lindsay Williams, 2024-03-05 The Oxford History of the Novel in English is a twelve volume series presenting a comprehensive global and up to date history of English language prose fiction written by a large international team of scholars The series is concerned with novels as a whole not just the literary novel and each volume includes chapters on the processes of production distribution and reception and on popular fiction and the fictional sub genres as well as outlining the work of major novelists movements and tendencies This book offers an account of US fiction during a period demarcated by two traumatic moments the eve of the entry of the United States into the Second World War and the onset of the Covid 19 pandemic The aftermath of the Second World War was arguably the high point of US nationalism but in the years that followed US writers would increasingly explore the possibility that US democracy was a failure both at home and abroad For so many of the writers whose work this volume explores the idea of nation became suspect as did the idea of national literature as the foundation for US writing Looking at post 1940s writing the literary historian might well chart a movement within literary cultures away from nationalism and toward what we would call cosmopolitanism a perspective that fosters conversations between the occupants of different cultural spaces and that regards difference as an opportunity to be embraced rather than a problem to be solved During this period the novel has had significant competition for the US public s attention from other forms of narrative and media film television comic books videogames and the internet and the various forms of social media that it spawned If however the novel becomes a residual form during this period it is by no means archaic The novel has been reinvigorated over the past eighty years by its encounters with both emergent forms such as film television comic books and digital media and the emergent voices typically associated with multiculturalism in the United States

Chaucer and Trauma Susanna Fein, David Raybin, 2025-05-13 Trauma is an inescapable condition of Chaucer s works From the ravaging of Troy and the abandonment of Dido to the devastating aftereffects of sexual assault Chaucer portrayed the most unsettling searing aspects of human experience While the term trauma was not part of Chaucer s vocabulary the author was assuredly aware of its causes and consequences its victims and symptoms This timely volume explores depictions of violence victimhood and overwhelming grief or loss in Chaucer s most ambitious texts Troilus and Criseyde and the Canterbury Tales The authors examine layers of deep emotional suffering in Chaucer s works as well as those forces that perpetrate injustices against human beings The essays scrutinize Chaucer s narratives through close textual analysis and modern theoretical approaches offering original perspectives and treating subjects relevant to contemporary concerns rape domestic violence slavery forced consent family separation natural catastrophe pandemic and more Written by leading voices in the field Chaucer and Trauma is designed to introduce readers of Chaucer to a topic of intense present interest Along with the volume editors the contributors include Sarah Baechle David

Resources in Education ,1984 Wicked Cinema Daniel S. Cutrara,2015-05-01 From struggles over identity politics in the 1990s to current concerns about a clash of civilizations between Islam and Christianity culture wars play a prominent role in the twenty first century Movies help to define and drive these conflicts by both reflecting and shaping cultural norms as well as showing what violates those norms In this pathfinding book Daniel S Cutrara employs queer theory cultural studies theological studies and film studies to investigate how cinema represents and often denigrates religion and religious believers an issue that has received little attention in film studies despite the fact that faith in its varied manifestations is at the heart of so many cultural conflicts today Wicked Cinema examines films from the United States Europe and the Middle East including Crimes and Misdemeanors The Circle Breaking the Waves Closed Doors Agnes of God Priest The Last Temptation of Christ and Dogma Central to all of the films is their protagonists struggles with sexual transgression and traditional belief systems within Christianity Judaism or Islam a struggle Cutrara argues that positions believers as the Other and magnifies the abuses of religion while ignoring its positive aspects Uncovering a hazardous web of ideological assumptions informed by patriarchy the spirit flesh dichotomy and heteronormativity Cutrara demonstrates that ultimately these films emphasize the Otherness of the faithful through a variety of strategies commonly used to denigrate the queer from erasing their existence to using feminization to make them appear weak to presenting them as dangerous fanatics

The Literary World ,1884 **The Image of the English Gentleman in Twentieth-Century Literature** Dr Christine Berberich,2013-04-28 Studies of the English gentleman have tended to focus mainly on the nineteenth century encouraging the implicit assumption that this influential literary trope has less resonance for twentieth century literature and culture Christine Berberich challenges this notion by showing that the English gentleman has proven to be a remarkably adaptable and relevant ideal that continues to influence not only literature but other forms of representation including the media and advertising industries Focusing on Siegfried Sassoon Anthony Powell Evelyn Waugh and Kazuo Ishiguro whose presentations of the gentlemanly ideal are analysed in their specific cultural historical and sociological contexts Berberich pays particular attention to the role of nostalgia and its relationship to Englishness Though Englishness and by extension the English gentleman continue to be linked to depictions of England as the green and pleasant land of imagined bygone days Berberich counterbalances this perception by showing that the figure of the English gentleman is the medium through which these authors and many of their contemporaries critique the shifting mores of contemporary society Twentieth century depictions of the gentleman thus have much to tell us about rapidly changing conceptions of national class and gender identity

APAIS 1999: Australian public affairs information service, *Interconnecting Translation Studies and Imagology* Luc van Doorslaer, Peter Flynn, Joep Leerssen, 2016-02-25 Isn't translation all about saying exactly the same thing in another language Aren't national images totally outdated in this era of globalization Most people might agree but this book amply illustrates how persistent and multifaceted clichés on translation and nation can be Time and again translating involves making transfer choices and these choices are never neutral Though globalization has seemingly all but erased national ideologies and cultural borders such ideologies and borders continue to play a determining role in conflicts identity politics and cultural profiles The place where transfer choices and forms of national and cultural representation come together is also the place where Translation Studies and Imagology meet This book offers a wealth of chapters showing how decisive selection and transfer processes can be in representing national images both self images and images of the others It shows also how intensely the two disciplines can work together and mutually benefit from shared data and methodologies

An Artistic Autoethnography on the Public Fetus Anna Gonzalez Suero, 2024-11-11 An Artistic Autoethnography on the Public Fetus explores artistic work with the iconic image of the fetus and the personal consequences of the image by analyzing the so called public fetus within a feminist approach This book develops a deeply interdisciplinary body of research engaging with feminist debates on reproductive technology and imagery art theory visual histories of anatomical imagery cultural critiques of the myth of the artistic genius Gestalt understandings of perception and memory and anthropological theories of liminality

Through blurring the artistic with the scientific it explores the potential of autoethnography to serve as a form of conscious raising through which to create new images and stories that counter the public fetus in support of reproductive autonomy and social justice This book will be useful to feminist scholars who work with issues related to gender reproduction sexuality and autoethnography At the same time the book will be of value to undergraduate and graduate students in gender studies as an example of how an autoethnographic process can make unrecognized experiences of gender known to a person
