The researchED Guide to Assessment: An evidence-informed guide for teachers Sarah Donarski, Tom Bennett, 2020-07-20 A teacher's job is to create an environment where our students' engagement in learning proceeds towards an intended direction In order for this to occur we must form a bridge between the teaching of material in the classroom and how the learning of that information is being processed and manipulated by our students The only way we can do this effectively is through the process of assessment Recent theoretical history on how to effectively establish and implement assessment strategies into policy has caused much confusion it is high time to consider how assessment marking and feedback have changed over the years so that conversations about how best to move forward can begin In this researchED Guide to Assessment Sarah Donarski brings together chapters by Dylan Wiliam Tom Sherrington Alison Peacock and many others to consider the debates critique the strategies and find solutions that not only better the progress of pupils but also assist the wellbeing and manageability of workload for staff

Education under Siege Mortimore, Peter, 2013-09-23 At a time when education is considered crucial to a country's economic success recent UK governments have insisted their reforms are the only way to make England's system world class Yet pupils are tested rather than educated teachers bullied rather than trusted and parents cast as winners or losers in a gamble for school places Education under siege considers the English education system as it is and as it might be In a highly accessible style Peter Mortimore an author with wide experience of the education sector both in the UK and abroad identifies the current system's strengths and weaknesses He concludes that England has some of the best teachers in the world but one of the most muddled systems

Challenging the government's view that there is no alternative he proposes radical changes to help all schools become good schools. They include a system of schools receiving a fair balance of pupils who learn easily and those who do not, ensuring a more even spread of effective teachers as well as banning league tables, outlawing selection, opening up faith schools and integrating private schools into the state system. In the final chapter he asks readers who share his concerns to demand that the politicians alter course. The book will appeal to parents, education students and teachers as well as everyone interested in the future education of our children. *The School Leadership Journey: What 40 Years in Education Has Taught Me About Leading Schools in an Ever-Changing Landscape* John Dunford, 2016-11-18.
