NI Curriculum Guides Social Studies:

Geographies of Schooling Holger Jahnke, Caroline Kramer, Peter Meusburger, 2019-08-21 This open access book explores the complex relationship between schooling as a set of practices embedded in educational institutions and their specific spatial dimensions from different disciplinary perspectives It presents innovative empirical and conceptual research by international scholars from the fields of social geography pedagogy educational and social sciences in Germany the United Kingdom France Czechia Hungary Austria Switzerland Norway and Canada The book covers a broad range of topics all examined from a spatial perspective the governance of schooling the transition processes of and within national school systems the question of small schools in peripheral areas as well as the embeddedness of schooling in broader processes of social change Transcending disciplinary boundaries the book offers deep insights into current theoretical debates and empirical case studies within the broad research field encompassing the complex relationship between education and space

Geography Education for Global Understanding Ali Demirci, Rafael de Miguel González, Sarah Witham Bednarz, 2018-04-26 This book presents the core concepts of geographical education as a means of understanding global issues from a spatial perspective It treats education supported by high standards approaches methodologies and resources as essential in exploring the interactions of the world's human and environmental systems at local regional and global scales embedded in the nature of the discipline of geography It covers topics such as climate change sustainable development goals geopolitics in an uncertain world global crisis and population flows which are of great interest to geography researchers and social sciences educators who want to explore the complexity of contemporary societies Highly respected scholars in geography education answer questions on key topics and explain how global understanding is considered in K 12 education in significant countries around the globe The book discusses factors such as the Internet social media virtual globes and other technological developments that provide insights into and visualization in real time of the intensity of relationships between different countries and regions of the earth It also examines how this does not always lead to empathy with other political cultural social and religious values terrorism threats and armed conflicts are also essential features of the global world This book opens the dialogue for global understanding as a great opportunity for teachers educators scholars and policy makers to better equip students and future citizens to deal with global issues

The Education of Selves Jack Martin, Ann-Marie McLellan, 2013-02-14 The Education of Selves examines the ways in which psychological theories research and interventions employed in American and Canadian schools during the last half of the twentieth century changed our understanding of students and fueled a backlash against what many have come to regard as a self absorbed generation of young people

International Practices to Promote Budget Literacy Harika Masud, Helene Pfeil, Sanjay Agarwal, Alfredo Gonzalez Briseno, 2017-08-09 Budget literacy is defined as the ability to read decipher and understand public budgets to enable and enhance meaningful citizen participation in the budget process It is comprised of two main

parts i a technical understanding of public budgets including familiarity with government spending tax rates and public debt and ii the ability to engage in the budget process comprising of practical knowledge on day to day issues as well as an elementary understanding of the economic social and political implications of budget policies the stakeholders involved and when and how to provide inputs during the annual budget cycle Given that no international standards or guidelines have been established for budget literacy education to date this book seeks to address this gap by taking stock of illustrative initiatives promoting budget literacy for youth in selected countries The underlying presumption is that when supply side actors in the budget process governments simplify and disseminate budget information for demand side actors citizens this information will then be used by citizens to provide feedback on the budget However since citizens are often insufficiently informed about public budgets to constructively participate in budget processes one way to empower them and to remedy the problem of budget illiteracy is to provide budget literacy education in schools to youth helping them evolve into civic minded adults with the essential knowledge needed for analyzing their government s fiscal policy objectives and measures and the confidence and sense of social responsibility to participate in the oversight of public resources This book elaborates on approaches learning outcomes pedagogical strategies and assessment approaches for budget literacy education and presents lessons that are relevant for the development improvement or scaling up of budget literacy initiatives Religion in Secular Education

Cathy Byrne,2014-01-09 Cathy Byrne presents the secular principle as a guiding compass for religion in government schools in plural democracies Using in depth case studies historical and contextual research from Australia and comparisons with other developed nations Religion in Secular Education provides a comprehensive at times confronting analysis of the ideologies policies pedagogies and practices for state school religion In the context of rising demands for students to develop intercultural competence and interreligious literacy and alongside increasing Christian evangelism in the public arena this book highlights risks and implications as education develops religious identity in individual children and in nation states Byrne proposes a best practice framework for nations attempting to navigate towards socially inclusive outcomes and critical thinking in religions education policy **Introduction to Curriculum Design in Gifted Education**

Language, Learning, and Culture in Early Childhood Ann Anderson,Jim Anderson,Jan Hare,Marianne McTavish,2015-12-07 Complex factors affect young children and their families in today s increasingly diverse world characterized by globalization the transnational movement of people and neo liberal government policies in western and industrialized countries This book focuses on three of these factors culture language and

learning and how they affect children's development and learning in the context of their communities, families, and schools. Taking an ecological perspective, it challenges normative and hegemonic views of young children's language, literacy, and numeracy development and offers examples of demonstrated educational practices that acknowledge and build on the knowledge that children develop and learn in culturally specific ways in their homes and communities. The authors highlight issues and perspectives that are particular to Indigenous people who have been subjected to centuries of assimilationist and colonialist policies and practices and the importance of first or home language maintenance and its cognitive, cultural, economic, psychological, and social benefits. Research in Education, 1971 [More Like Life Itself](#) Cory Wright-Maley, 2018-10-01 John Dewey wrote in multiple places that education should be an experience of the content and processes of life itself. Too often, social studies is taught in a way that tells students about real life but fails to engage them in the process of life for which Dewey advocated. The core purpose of simulations is to reflect the processes, events, and phenomena expressed in a variety of real-life domains. They engage students in these reflections of real life meaningfully as active agents who have the power to make decisions that impact the direction of events and that lead to both intended and unintended consequences. Because of the nature of simulations, students who participate in them are able to build their capacities to think in complex and critical ways. Today, despite the growing evidence that simulations have an important role to play in the teaching of social studies, they remain an underutilized and undervalued approach to the discipline. One of the key obstacles to their widespread adoption is the limited availability of training resources available to social studies teachers. Teachers need support to develop a new vision of social studies teaching and learning coupled with practical guidance necessary to implement simulations effectively. This volume provides teachers with both. When teachers are able to weave simulations effectively into the fabric of social studies teaching and learning, they help to promote social studies experiences that are both powerful and purposeful. They offer students an experience of the discipline that is indeed [More Like Life Itself](#).

A Civil War Scrapbook History Colorado, 2012-05-01 A children's multicultural history of the Civil War. This ambitious book emphasizes the roles of the children, women, minorities, and even animals that were involved in the war. Enhanced with historical photographs, drawings, maps, games, and primary quotes from children, the book gives a new perspective on the Civil War.
