and unsupported is long overdue for a fundamental rethink We need to find ways to ensure seniors can age gracefully in the community for longer with supportive home care and respite for family caregivers and ensure that long term care homes are not warehouses of isolation and neglect Our elders deserve nothing less **Alone and Invisible No More** Allan S. Teel, 2011 Within the next two decades tens of millions of Americans will reach the age where they will need either significant support to stay in their own homes or a cost effective residential alternative The current state of elder care in America is appalling expensive and unsustainable It underserves the majority of elderly Americans and bankrupts all but the richest few while virtually ignoring this population s complex physical and mental needs At a time when we should be celebrating the achievements and wisdom of the oldest citizens we instead find ways to overmedicate and isolate them in dehumanizing nursing home facilities And space for more residents within this system is running out There must be a better way In *Alone and Invisible No More* physician Dr Allan S Teel MD describes a philosophy and a course of action that have turned aging in place into a viable alternative for dozens of elderly residents in Damariscotta Maine Teel lays out a course of action to expand his approach to the millions of Americans approaching retirement age and how these techniques can be used to avert the financial and personal disaster approaching nationwide He discusses the resources both technological and professional needed to guide this transition and the community support that will be critical to its success Taking this Maine Approach to the rest of the country could create a climate where Americans welcome rather than fear the approach of their golden years Provided by publisher *No More Simps* Conrad Riker, 101 Are you tired of being treated like a second class citizen in a world that demands everything from men but gives nothing in return Do you feel like society has turned its back on men leaving you without purpose or respect Are you exhausted from being told to apologize for being a man while women expect you to provide protect and sacrifice Have you ever wondered why despite all the talk of equality men still dominate dangerous jobs and women still choose traditional roles Inside this book Discover why gender equality is a myth and how embracing natural differences can lead to a more fulfilling life Learn how to protect yourself from the legal and financial traps of modern marriage Reclaim your masculinity and reject the toxic double bind of feminism Understand the importance of fatherhood and how to be a strong role model for your children Fight back against the systemic discrimination that has turned men into second class citizens Master the sexual marketplace by understanding hypergamy and becoming the prize Break free from the feminized education system that fails boys and stifles their potential Join the growing movement of men who are going their own way and finding true freedom If you re ready to take control of your life reclaim your purpose and thrive in a world that s stacked against you then buy *No More Simps A Man s Guide to Power Purpose and Prosperity* today Your future self will thank you **No More Throw-away People** Edgar S.
