The Dawning Age of Cooperation Gordon Ervin Moss, 2011 Rugged individualism is great for legendary heroes but does it really shape a society that can endure for the long term A massive social transformation is underway driven by technology it requires and is pushing us toward a cooperative culture Our American competitive individualistic culture is outmoded and increasingly ineffective This book presents a new model of cooperation for building a cooperative American and worldwide society True cooperation is a stranger in America The author an expert on medical sociology has conducted research on social stress and cooperative solutions only to find that we call many things cooperation which are not This includes mutual aid in pursuit of shared individual goals democratic decision making equal sharing and compromising True cooperation is a cultural pattern used to organize cooperative social systems Participants are group centered and work to achieve group goals True cooperation produces rapidly adapting information processing social systems that benefit all of the participants These cooperative organizations and societies become our primary and very effective adaptive tools for survival This book shows what true cooperation is and how to do it while also showing how competition and individualism prevent us from truly cooperating and creating a cooperative American and worldwide society This book fills a huge gap in our literature on and understanding of OC cooperation OCO As such it is of great value to libraries organizations universities a variety of specialties and professions and concerned individuals The book is written at a more academic level because the material cannot be simplified further without loss of insights and information It is a OC friendly OCO academic level with examples and

Brosnan,2021-07 The Greater Plains tells a new story of a region stretching from the state of Texas to the province of Alberta where the environments are as varied as the myriad ways people have inhabited them These innovative essays document a complicated history of human interactions with a sometimes plentiful and sometimes foreboding landscape from the Native Americans who first shaped the prairies with fire to twentieth century oil regimes whose pipelines linked the region to the world The Greater Plains moves beyond the narrative of ecological desperation that too often defines the region in scholarly works and in popular imagination Using the lenses of grasses animals water and energy the contributors reveal tales of human adaptation through technologies ranging from the travois to bookkeeping systems and hybrid wheat Transnational in its focus and interdisciplinary in its scholarship The Greater Plains brings together leading historians geographers anthropologists and archaeologists to chronicle a past rich with paradoxical successes and failures conflicts and cooperation but also continual adaptation to the challenging and ever shifting environmental conditions of the North American heartland Circular ,1953 *The Literary History of Alberta Volume Two* George Melnyk,1998 In this the companion to the landmark volume The Literary History of Alberta Volume One From Writing on Stone to World War Two George Melnyk examines Alberta literature in the second half of the twentieth century At last Melnyk argues Alberta writers have found their voice and their accomplishments have been remarkable The contradictory landscape the stereotypes of the Indian the Mountie and the Cowboy and the language of the Other speaking from the margins these elements all left their impressions on the consciousness of early Alberta But writers in the last few decades have turned this inheritance to their advantage to create compelling stories about this place and its people Today Melnyk discovers Alberta writers can appreciate not only this achievement but also its essential source the symbolic communication of Writing on Stone The Literary History of Alberta Volume Two extends the study of Alberta s cultural history to the present day It is a vital text for anyone interested in Alberta s vibrant literary culture **A Report of Stubble Mulch Tillage and Other Conservation Measures Used in the Pacific Northwest Region.** ...
