cannot fit every play nor does one method of interpretation suit every theatre artist or collaborative team This is the first text to combine traditional and non traditional models giving students a range of tools with which to approach different kinds of performance **Playing with the Book** Hannah Field, 2019-07-02 A beautifully illustrated exploration of how Victorian

novelty picture books reshape the ways children read and interact with texts The Victorian era saw an explosion of novelty picture books with flaps to lift and tabs to pull pages that could fold out pop up scenes and even mechanical toys mounted on pages Analyzing books for young children published between 1835 and 1914 Playing with the Book studies how these elaborately designed works raise questions not just about what books should look like but also about what reading is particularly in relation to children's literature and child readers Novelty books promised or threatened to make reading a physical as well as intellectual activity requiring the child to pull a tab or lift a flap to continue the story These books changed the relationship between pictures words and format in both productive and troubling ways Hannah Field considers these aspects of children's reading through case studies of different formats of novelty and movable books and intensive examination of editions that have survived from the nineteenth century She discovers that children ripped tore and colored in their novelty books despite these books explicit instructions against such behaviors Richly illustrated with images of these ingenious constructions Playing with the Book argues that novelty books construct a process of reading that involves touch as well as sight thus reconfiguring our understanding of the phenomenology of reading Humanism, Drama, and Performance

Hana Worthen, 2020-10-13 This book examines the appropriation of theatre and theatrical performance by ideologies of humanism in terms that continue to echo across the related disciplines of literary drama theatre and performance history and studies today From Aristotle onward theatre has been regulated by three strains of critical poesis the literary segregating theatre and the practices of the spectacular from the humanizing work attributed to the book and to the internality of reading the dramatic approving the address of theatrical performance only to the extent that it instrumentalizes literary value and the theatrical assimilating performance to the conjunction of literary and liberal values These values have been used to figure not only the work of theatre but also the propriety of the audience as a figure for its socializing work along a privileged dualism from the aestheticized ensemble harmonizing actor character and spectator to the essentialized drama to the politicized assembly theatre understood as an agonistic gathering **The Justices' Manual.**

Tenth edition Samuel Stone, 1868 **The Post-traumatic Theatre of Grotowski and Kantor** Magda Romanska, 2012 Despite its international influence Polish theatre remains a mystery to many Westerners This volume attempts to fill in current gaps in English language scholarship by offering a historical and critical analysis of two of the most influential works of Polish theatre Jerzy Grotowski's Akropolis and Tadeusz Kantor's Dead Class By examining each director's representation of Auschwitz this study provides a new understanding of how translating national trauma through the prism of performance can alter and deflect the meaning and reception of theatrical works both inside and outside of their cultural and historical contexts **The Oxford Guide to Plays** Michael Patterson, 2007 Anyone with an academic professional amateur or recreational interest in the theatre is likely to want to look up details of particular plays sometimes perhaps to check on the author or on when they were first performed or perhaps to see how many characters they have and whether or not they

Rethinking Character in Contemporary British Theatre Cristina Delgado-García,2015-11-13 The category of theatrical character has been swiftly dismissed in the academic reception of no longer dramatic texts and performances However claims on the dissolution of character narrowly demarcate what a subject is and how it may appear This volume unmoors theatre scholarship from the regulatory ideals of liberal humanism stretching the notion of character to encompass and illuminate otherwise unaccounted for subjects aesthetic strategies and political gestures in recent theatre works To this aim contemporary philosophical theories of subjectivation European theatre studies and experimental script led work produced in Britain since the late 1990s are mobilised as discussants on the question of subjectivity Four contemporary playtexts and their performances are examined in depth Sarah Kane's *Crave* and *4 48 Psychosis* Ed Thomas's *Stone City Blue* and Tim Crouch's *ENGLAND* Through these case studies Delgado García demonstrates alternative ways of engaging theoretically with character and elucidating a range of subjective figures beyond identity and individuality Alongside these analyses the book traces a large body of work that has experimented with speech attribution since the early twentieth century This is a timely contribution to contemporary theatre scholarship which demonstrates that character remains a malleable and politically salient notion in which understandings of subjectivity are still being negotiated
