Murray, 2020-03-10 Despite the end of white minority rule and the transition to parliamentary democracy Johannesburg remains haunted by its tortured history of racial segregation and burdened by enduring inequalities in income opportunities for stable work and access to decent housing Under these circumstances Johannesburg has become one of the most dangerous cities in the world where the yawning gap between the haves and have nots has fueled a turn toward redistribution through crime While wealthy residents have retreated into heavily fortified gated communities and upscale security estates the less affluent have sought refuge in retrofitting their private homes into safe houses closing off public streets and hiring the services of private security companies to protect their suburban neighborhoods *Panic City* is an exploration of urban fear and its impact on the city's evolving siege architecture the

transformation of policing and obsession with security that has fueled unprecedented private consumption of protection services Martin Murray analyzes the symbiotic relationship between public law enforcement agencies private security companies and neighborhood associations wherein buyers and sellers of security have reinvented ways of maintaining outdated segregation practices that define the urban poor as suspects

**The Special Constabulary** Karen Bullock, Andrew Millie, 2017-07-06 Special constables are warranted officers retained within British constabularies Wearing similar uniforms carrying the same personal protective equipment and holding identical powers to enforce the criminal law special constables are to all intents and purposes indistinguishable from their colleagues in the regular police service However very little is documented about the experiences and motivations of special constables the roles they play in contemporary policing or the impact that they have on the police organisation This book draws together academics and practitioners to provide a valuable insight into historical international and contemporary themes pertinent to the historical development and contemporary operation of the special constabulary The book critically considers the origins of the special constabulary and the political social and economic factors which led to its evolution over time It compares and contrasts the organisation functions and status of the special constabulary with other auxiliary forces notably from the United States The book also contributes to theoretical understanding of contemporary policing to debates about the roles and operation of the mixed economy of provision and informs policy and practice in the United Kingdom and beyond

**Doing Research on Crime and Justice** Roy King, Emma Wincup, 2008 Focusing on the problems that novice researchers encounter when translating neat and tidy textbook methodologies into real life situations this guide explains how to undertake research in the fields of criminology and criminal justice

Regulating the Security Industry Mahesh Nalla, Tim Prenzler, 2020-01-24 It is widely acknowledged that the size of the security industry has increased in virtually every country around the world often eclipsing conventional police forces in personnel numbers and expenditures Security providers differ from law enforcement officers in many ways yet the nature of their crime reduction activities brings them into frequent contact with citizens drawing to the forefront issues of training professionalism and accountability Unlike police officers whose training and licensing standards are well established regulations for security providers are often minimalist or entirely absent This volume brings together research on regulatory regimes and strategies from around the globe covering both the large private security sector and the expanding area of public sector non police protective security It examines the nature and extent of licensing and monitoring and the minimum standards imposed on the industry by governments across the world The chapters in this book were originally published in the International Journal of Comparative and Applied Criminal Justice

Changing of the Guards Alex Luscombe, Kevin Walby, Derek Silva, 2022-06-15 Although service outsourcing has spread throughout Canada s prisons and jails into its police courts and national security institutions and along the border in recent decades the expanding scope and pace of corporate involvement in criminal justice functions has not been closely investigated Changing of the Guards provides a comprehensive

assessment of privatization and private influence across the twenty first century Canadian criminal justice system It illuminates the many consequences of public private arrangements for law and policy transparency accountability the administration of justice equity and public debate Within the contexts of policing sentencing imprisonment border control and national security the contributors explore crucial questions about legitimacy policy diffusion racism inequality corruption and democracy itself Changing of the Guards is a long overdue account of the social political and historical uniqueness of the Canadian criminal justice field and the key issues raised by this trenchant analysis are relevant both within and beyond Canada

*Private Security in Africa* Doctor Paul Higate, Mats Utas, 2017-06-15 Across Africa growing economic inequality instability and urbanization have led to the rapid spread of private security providers While these PSPs have already had a significant impact on African societies their impact has so far received little in the way of comprehensive analysis Drawing on a wide range of disciplinary approaches and encompassing anthropology sociology and political science Private Security in Africa offers unique insight into the lives and experiences of security providers and those affected by them as well as into the fragile state context which has allowed them to thrive Featuring original empirical research and case studies ranging from private policing in South Africa to the recruitment of Sierra Leoneans for private security work in Iraq the book considers the full implications of PSPs for security and the state not only for Africa but for the world as a whole
