Are data available for tracking progress on nutrition policies, programs, and outcomes in Nepal? Neupane, Sumanta, Jangid, Manita, Scott, Samuel, Nguyen, Phuong Hong, Kim, Sunny S., Murira, Zivai, Torlesse, Harriet, Menon, Purnima, 2021-07-15 The World Health Organization WHO and other global nutrition and health agencies recommend nutrition actions throughout the life course to address malnutrition in all its forms In this report we examined how Nepal's nutrition policies and programs addressed recommended nutrition actions nutrition outcomes and the determinants of these outcomes We reviewed population based surveys and administrative data systems in order to assess the data availability on nutrition actions and on the indicators of determinants and outcomes Our policy review identified a total of 53 recommended evidence based nutrition actions of which 50 nutrition actions were applicable in Nepal Of these 45 were addressed in the country's nutrition policies and programs and some of the actions were only available in some districts Nutrition actions that were not included in current policies and programs included calcium supplementation and advice on consuming calcium during pregnancy and daily iron and folic acid IFA supplementation during childhood Current policies addressed daily or intermittent IFA supplementation during preconception and food supplementation for malnourished lactating women during the postnatal period however there was no program to implement these actions Nepal's Multi Sector Nutrition Plan MSNP recognized and addressed all key determinants of nutrition it also expressed an intent to address all SDG nutrition targets for maternal infant and young child nutrition Noncommunicable diseases NCDs however were addressed separately by a multisectoral plan for NCDs Our data review found that out of 45 actions that policies and programs addressed population based surveys contained data on only 27 actions and administrative data systems contained data on only 25 actions Population based surveys and administrative data sources contained no data on food supplementation during adolescence weight monitoring and various types of counseling during pregnancy optimal timing delayed of umbilical cord clamping support for breastfeeding and immediate skin to skin contact optimal feeding of low birth weight infants and counseling of mothers of low birth weight infants on kangaroo mother care KMC during delivery and in the postpartum period breastfeeding counseling counseling on appropriate complementary feeding counseling after growth monitoring and inpatient management of severe acute malnutrition SAM during early childhood Population based surveys contained data on

most of the indicators of immediate and underlying determinants while administrative data systems did not have data on all indicators of immediate determinants Data on all indicators of nutrition outcomes were available from population based surveys In conclusion Nepal s policy and program landscape for nutrition is robust however the gaps in data availability for tracking progress on nutrition actions are much larger than the gap in policies and programs for addressing recommended actions Future population based surveys and modifications of administrative data systems should aim to fill the identified data gaps for nutrition actions STA Today ,1996 Computer Contribution Kansas Geological Survey,1968 **Energy Research Abstracts** ,1980 **Alturas Field Office** ,2007 **Popular Mechanics** ,1954-04 Popular Mechanics inspires instructs and influences readers to help them master the modern world Whether it s practical DIY home improvement tips gadgets and digital technology information on the newest cars or the latest breakthroughs in science PM is the ultimate guide to our high tech lifestyle
