

Leaving School Poem

Leaving

Primary school is over now with high school coming fast,
I have to tell you this last year has simply been a blast.

Shortly you'll be moving on to somewhere fresh and new,
This school will be so different when we do not have you.

We've watched you grow and turn into the person that you are,
To read and write and count with ease, you simply are a star!

We want you to remember, a message from us all,
Live your life and chase your dreams, whether big or small.

You are unique and wonderful and sadly, will be missed.
So grab life and forever hold it tightly in your fist.

Goodbye from us and thank you as it has been so much fun,
Remember you are special and you're simply number one!

classrooms therein that were selected as research sites to explore the concept of teacher student power relations. Observations, individual interviews and document analysis were the main data collection methods employed. Wong provides the historical context for the issue of teacher student power relationship by reviewing the traditional Chinese cultures and values, in particular the values of respect for authority and for teachers, and demonstrates the intermingling of Chinese and Western cultures in contemporary Hong Kong Chinese society. She reviews the major educational initiatives carried out in Hong Kong since the 1970s showing how Western educational policies promoting student centric teaching modes have encouraged changes in classroom culture. With reference to the observed seventy three lessons, the study identified three patterns of teacher student power relations: Teacher Domination, Relatively Balanced Opportunity for Power Sharing and Student Self Empowerment, each involving different degrees of power being exercised by teacher and students. The coexistence of these three power patterns and the two corresponding power situations, student empowerment and disempowerment, can be explained as the result of multileveled intertwined interactions among six factors related to social culture, education policy, school and classroom contexts and to the individual players concerned. The book thus contributes to the understanding of teacher student power relations in the context of Hong Kong by proposing a theoretical framework that reflects local socio cultural educational and school contexts.
