The Economic Geography of the Car Market Bartłomiej Kołsut, Tadeusz Stryjakiewicz, 2022-09-26 This book provides a comprehensive analysis of long term changes in the car market of an emerging economy with a focus on its spatial and temporal dimensions Poland the case study in question represents a unique laboratory of automobile revolution during the late 20th and early 21st centuries The volume brings to the fore several key aspects of the car market such as car ownership markets for new cars import of second hand cars car use electromobility and environmental impact Many of them are the subject of a global debate in the context of achieving sustainable development goals Others meanwhile point to the unique nature of transformations related to the car market in Poland Altogether consideration of these aspects enriches the international literature with new results and findings that will broaden the field of discussion on the car market onto the emerging economies especially those of Central and Eastern Europe The book combines the results of quantitative and

qualitative research The former is based on a big data set ca 40 million vehicles and the latter on an in depth social survey questionnaire interviews with more than 4 000 drivers The discussion of the geography of automobile revolution is linked to other social economic and spatial phenomena and processes e g urban sprawl or rural marginalisation consumer decisions and the evolution of quality of life and the development of individual entrepreneurship or environmental protection as well as to transport tax and customs policies The analysis of the dynamics of change pays particular attention to the role of critical junctures such as the collapse of the communist system EU membership the world financial crisis 2007 2009 and first period of COVID 19 pandemic 2020 2021 The book will be of interest to scholars students and practitioners dealing with transport research geography of transportation spatial economy urban and regional planning and sustainability studies and for car hobbyists

The Korean Automotive Industry, Volume 1 A. J. Jacobs, 2021-12-10 In 1962 South Korea assembled just 1 100 new automobiles By 1996 this total had soared to 2 812 714 What explains this remarkable growth The answer is complex and involves a combination of a supportive State timely technology alliances a skilled but historically low paid workforce aggressive pricing savvy entrepreneurs and fortuitous circumstances Despite this amazing ascent comparatively little has been written about the Korean auto industry in English In the first of a two volume set this 11 chapter book seeks to help fill this void by providing in depth examinations of all six of Korea's automakers from their beginnings through 1996 Uniquely written from the perspective of industry analysts at the time without knowledge of the Asian Fiscal Crisis the book should prove informative to practitioners scholars and students interested in automotive history international political economy Asian studies and more

Dynamics In Pacific Asia Kurt W. Radtke, 2014-07-16 First published in 1998 The writing of this book started in earnest with the establishment of a joint research group that gathered at the Netherlands Institute of Advanced Study Wassenaar The Hague between September 1995 and June 1996 The starting point was the question to what extent and in what way the new dynamics in South east Asia would influence Europe's global position and more specifically how these changes should be conceptualized in order to assist in the formulation of new policies to deal with the new international environment Most contributors to this book would agree that there is ample reason to view these changes as an opportunity for Europe and not just as a threat

The New Domestic Automakers in the United

States and Canada A.J. Jacobs, 2015-12-16 Over the past forty years state provincial and local governments in the United States and Canada have provided foreign automakers with approximately 4 80 billion in incentives in order to lure light

vehicles assembly plants to their areas This has included tax abatements infrastructure construction land giveaways job training programs and other subsidies As of early 2015 ten foreign vehicle makers operated 20 light vehicles in developed North America Despite the fact that all ten of these automakers have pursued a similar pattern first exporting vehicles into the United States and Canada before launching vehicle plants in developed North America each has followed its own specific historical development path and has created its own unique growth trajectory This book provides a unique historical and qualitative review of these ten vehicle makers from their early beginnings to their export entry into the United States and or Canada through early 2015 In addition it chronicles the histories of more than a dozen former automakers and potential future foreign light motor vehicle assembly plants in the United States and Canada This includes the first foreign automaker to build its cars in the United States De Dion Bouton of France in July 1900 the early 20th Century endeavors of Fiat Mercedes and Rolls Royce and the present day hopes of Chinese and Indian automakers In the process the text also provides an assessment of the top competing states and sites for any future plants the possible incentives packages governments may offer to attract such facilities and an estimated incentive value for each automaker Overall the goal of this book is to expand the knowledge of policymakers at all tiers of government in the United States and Canada and to help them take a more holistic look at the pros and cons of attracting Automobile Manufacturing FDI It is hoped that this will enable them to make more informed decisions when pursuing a new foreign motor vehicle assembly plant Its findings should also prove informative to urban and regional planning political science sociology economics labor and international development scholars and students in North America and worldwide

Transforming Korean Politics Young Whan Kihl, 2015-03-26 Over the past fifteen years South Korea has transformed itself from an authoritarian government into a new democracy with a vibrant capitalist economy Modernization democratization and globalization have played important roles in this transformation and have greatly influenced the programs and policies of Korea's Sixth Republic Covering developments through the 2003 elections this book shows how the South Korean government and society have been shaped not only by the dynamics of these forces but also by their interaction with the cultural norms of a post Confucian society The author provides a conceptual framework and baseline for examining political developments in Korea and offers an analysis of the factors that are transforming Korean institutions society and politics He discusses the forces shaping Korea's political economy and the performance of successive ROK governments and also highlights the challenges faced by the newly elected administration of Roh Moo Huan the North Korean issue and more

A Million Cars For A Billion People Gautam Sen, 27-02-15 Can one car transform a nation The Ford Model T did do so a century ago when it replaced the horse brought about a revolution in agriculture became a stimulus to urbanization that eventually changed the landscape of America Though the Maruti 800 the Tata Indica the Hyundai Santro and the Maruti Alto became engines of growth for India these cars neither drove away the cow nor changed the way Indians travelled Tata's Nano was expected to change all that and become the ultimate people's

car capturing the imagination of the middle class across nations and cultures In spite of its petite dimensions the Nano was meant to stand tall Yet it did not What caused it to fail and fall from grace despite being lauded as the right product at the right time and the most significant new car since the Ford Model T was introduced 100 years ago But is it really all over or is there still hope for India s little wonder What will the people s cars of tomorrow be like A Million Cars for a Billion People delves into the questions concerns and doubts as well as the many misconceptions and myths that have gathered momentum over the years about India s automotive history and the industry s mission to create a true people s car The very first cars that came to India the early beginnings of the industry the nascent history of the automobile across nations like Germany France US the UK Italy Japan and South Korea is narrated with authority and charm from the viewpoint of the quest for the ultimate people s car

Political Geographies of the Post-Soviet Union John O'Loughlin,Ralph S. Clem,2020-05-21 This comprehensive volume observes how after 25 years of transition and uncertainty in the countries that constituted the former Soviet Union their political geographies remain in a state of flux The authors explore the fluid relationship between Russia by far the dominant economic and military power in the region and the other former republics They also examine new developments towards economic blocs such as membership in the European Union or the competing Eurasian Economic Union as well as new security arrangements in the form of military cooperation and alliance structures This book reflects the broad range of changes across this important world region by engaging in insightful analysis of current developments in Central Asia Ukraine Russia the Caucasus and separatist regions The authors explore new state alliances and the evolving cultural and geopolitical orientations of former Soviet citizens Some chapters also examine the dynamics of wars that have occurred in the post Soviet space as well as how local political developments are reflected in electoral preferences and struggles over control of public spaces The chapters in this book were originally published in the journal Eurasian Geography and Economics
