

THERE ARE NO CLEAN GETAWAYS

A large, close-up, high-contrast image of a man's face, likely Kevin Spacey, dominates the background. The face is pale with dark, intense eyes. In the lower center, a smaller figure of a man in a light blue shirt and dark jacket is running towards the viewer, carrying a briefcase and a long object (possibly a gun or a tool). The overall color palette is dark and moody, with a hint of orange light at the bottom, suggesting a sunset or a fire.

No Country For Old Men English Edition:

No Country for Old Men Paddy Lyons, 2008 The concepts of Ireland and Irishness are in constant flux in the wake of an ever increasing reappraisal of the notion of cultural and national specificity in a world assailed from all angles by the forces of globalisation and uniformity Reimagining Ireland interrogates Ireland's past and present and suggests possibilities for the future by looking at Ireland's literature culture and history and subjecting them to the most up to date critical appraisals associated with sociology literary theory historiography political science and theology *No Country for Old Men* Cormac McCarthy, 2007-11-29 From the bestselling author of *The Passenger* and the Pulitzer Prize winning novel *The Road* comes a profoundly disturbing and gorgeously rendered novel *The Washington Post* that returns to the Texas Mexico border setting of the famed *Border Trilogy* The time is our own when rustlers have given way to drug runners and small towns have become free fire zones One day a good old boy named Llewellyn Moss finds a pickup truck surrounded by a bodyguard of dead men A load of heroin and two million dollars in cash are still in the back When Moss takes the money he sets off a chain reaction of catastrophic violence that not even the law in the person of aging disillusioned Sheriff Bell can contain As Moss tries to evade his pursuers in particular a mysterious mastermind who flips coins for human lives McCarthy simultaneously strips down the American crime novel and broadens its concerns to encompass themes as ancient as the Bible and as bloodily contemporary as this morning's headlines *No Country for Old Men* is a triumph **No Country for Old Men** Lynnea Chapman King, Rick Wallach, Jim Welsh, 2009-08-03 In 2005 Cormac McCarthy's novel *No Country for Old Men* was published to wide acclaim and in 2007 Ethan and Joel Coen brought their adaptation of McCarthy's novel to the screen The film earned praise from critics worldwide and was honored with four Academy Awards including Best Picture Best Director and Best Adapted Screenplay In *No Country for Old Men From Novel to Film* scholars offer varied approaches to both the novel and the award winning film Beginning with several essays dedicated entirely to the novel and its place within the McCarthy canon the anthology offers subsequent essays focusing on the film the adaptation process and the Coen Brothers more broadly The book also features an interview with the Coen brothers long time cinematographer Roger Deakins This entertaining and enriching book for readers interested in the Coen Brothers films and in McCarthy's fiction is an important contribution to both literature and film studies *Focus On: 100 Most Popular Gangster Films* Wikipedia contributors, **No Place for Home** Jay Ellis, 2013-11-05 This book was written to venture beyond interpretations of Cormac McCarthy's characters as simple antinomian and non psychological and of his landscapes as unrelated to the violent arcs of often orphaned and always emotionally isolated and socially detached characters As McCarthy usually eschews direct indications of psychology his landscapes allow us to infer much about their motivations The relationship of ambivalent nostalgia for domesticity to McCarthy's descriptions of space remains relatively unexamined at book length and through less theoretical application than close reading By including McCarthy's latest book this study offers the only complete study of all nine novels Within McCarthy

studies this book extends and complicates a growing interest in space and domesticity in his work The author combines a high regard for McCarthy's stylistic prowess with a provocative reading of how his own psychological habits around gender issues and family relations power books that only appear to be stories of masculine heroics expressions of misogynistic fear or antinomian rejections of civilized life **Post-Westerns** Neil Campbell, 2020-04-01 During the post World War II period the Western like America's other great film genres appeared to collapse as a result of revisionism and the emergence of new forms Perhaps however as theorists like Gilles Deleuze suggest it remains simply maintaining its empty frame Yet this frame is far from empty as Post Westerns shows us rather than collapse the Western instead found a new form through which to scrutinize and question the very assumptions on which the genre was based Employing the ideas of critics such as Deleuze Jacques Derrida and Jacques Rancière Neil Campbell examines the haunted inheritance of the Western in contemporary U.S. culture His book reveals how close examination of certain postwar films including *Bad Day at Black Rock* *The Misfits* *Lone Star* *Easy Rider* *Gas Food Lodging* *Down in the Valley* and *No Country for Old Men* reconfigures our notions of region and nation the Western and indeed the West itself Campbell suggests that post Westerns are in fact ghost Westerns haunted by the earlier form's devices and styles in ways that at once acknowledge and call into question the West both as such and in its persistent ideological framing of the national identity and values **Focus On: 100 Most Popular English-language Film Directors** Wikipedia contributors, **Translation, Globalization and Translocation** Concepción B. Godev, 2017-09-07

This book examines the spaces where translation and globalization intersect whether they be classrooms communities or cultural texts It foregrounds the connections between cultural analysis literary critique pedagogy and practice uniting the disparate fields that operate within translation studies In doing so it offers fresh perspectives that will encourage the reader to reappraise translation studies as a field reaffirming the directions that the subject has taken over the last twenty years Offering a comprehensive analysis of the links between translation and globalization this ambitious edited collection will appeal to students and scholars who work in any area of translation studies **Other Americans** Matthew Bush, 2022-10-04 Grounded in perspectives of affect theory *Other Americans* examines the writings of Roberto Bolaño and Daniel Alarcón films by Alfonso Cuarón Claudia Llosa Matt Piedmont and Joel and Ethan Coen as well as the Netflix serials *Narcos* and *El marginal* These widely consumed works about Latin America equally balanced between narratives produced in the United States and in the region itself are laden with fear anxiety and shame which has an impact that exceeds the experience of reception The negative feelings encoded in visions of Latin America become common coinage for US audiences shaping their ideological relationship with the region and performing an affective interpellation By analyzing the underlying melodramatic structures of these works that would portray Latin America as an implicit other Bush examines a process of affective comprehension that fomented an us-them or north-south binary in the reception of Latin America's globalized art **Cormac McCarthy's Neoliberalism** Brian James Schill, 2025-04-10 In *Cormac McCarthy's Neoliberalism* Breakdown in Mercantile Ethics editor

Brian James Schill gathers insightful essays that probe how McCarthy's works have commented on and caricatured the economic political and cultural forces of neoliberalism. Spanning McCarthy's career from *Suttree* to his final novels *The Passenger* and *Stella Maris*, this volume positions McCarthy as both a chronicler of and a participant in the neoliberal era. The contributors explore how McCarthy's fictions, often set against vast barren landscapes, reflect the predatory logic of neoliberal capitalism marked by economic inequality, environmental degradation, and social upheaval. The nine essays presented here argue that McCarthy's critiques go beyond the superficial and delve deeply into the material and cultural conditions shaped by neoliberal governance. By examining the commodification and accumulation of wealth both in the settings of his novels and the lives of his characters, McCarthy is revealed as both a sharp observer of the social consequences of unchecked capitalist expansion and a participant in that expansion. Ultimately, Cormac McCarthy's *Neoliberalism* demonstrates how the master's works grapple with the ways in which neoliberalism has reshaped human relationships from the intimate to the institutional while casting a spotlight on those left behind by global economic forces.

Religion in Cormac McCarthy's Fiction Manuel Broncano, 2013-11-20. This book addresses the religious scope of Cormac McCarthy's fiction, one of the most controversial issues in studies of his work. Current criticism is divided between those who find a theological dimension in his works and those who reject such an approach on the grounds that the nihilist discourse characteristic of his narrative is incompatible with any religious message. McCarthy's tendencies toward religious themes have become increasingly more acute, revealing that McCarthy has adopted the biblical language and rhetoric to compose an apocryphal narrative of the American Southwest while exploring the human innate tendency to evil in the line of Herman Melville and William Faulkner, both literary progenitors of the writer. Broncano argues that this apocryphal narrative is written against the background of the Bible: a peculiar Pentateuch in which *Blood Meridian* functions as the Book of Genesis, the Border Trilogy functions as the Gospels, and *No Country for Old Men* as the Book of Revelation, while *The Road* is the post-apocalyptic sequel. This book analyzes the novels included in what Broncano defines as the South Western cycle from *Blood Meridian* to *The Road* in search of the religious foundations that support the narrative architecture of the texts.

Since the birth of their nation, Americans have acted on the belief that theirs was a land of youth, a place destined to offer a fresh start to an aging world. *No Country for Old Age* tells this story from the founding period to our present moment but not without exposing its darker side: rejuvenation has often bred grand expectations that end in division and despair. Mischa Honeck reveals how Americans of diverse backgrounds have sought not only to feel and look younger but also to breathe new life into their communities. Whether marching under the banners of science, public health, sexual liberation, physical fitness,
