

**PLATO'S APOLOGY READING AND QUESTIONS**

**Directions:** Read and then answer the following questions about Plato's Apology.

Plato's Apology (reading):

"Plato's Apology is not Plato's at all. It is actually Socrates. Since Socrates was illiterate, Plato wrote everything Socrates said.

Yet another aspect of Socrates' teachings that Plato named after him: If the way that the dialogue worked is that Socrates would meet a young man who claims to know something about one of the "big topics" (Intelligence, bravery, cleverness, etc.). Socrates would ask him questions at first, causing the young man to feel very good about himself. Then Socrates notices a minor problem with the youth's argument, though. Socrates would simply unravel the youth's theories, leaving the youth confused. Both admit to being ignorant and "hide" or run away with embarrassment. Many tempt Socrates to talk it out with Socrates in order to discover the "right" answer, the truth. He just doesn't do it, and the youth now has learned to question the "right" answer. The "right" answer is just take it as given that we know it for granted.

The apology, however, is not an "apology" in the modern sense. In The Apology, Socrates attempts to defend himself and his conduct – certainly not apologize.

For the most part, Socrates speaks in a straightforward manner. He is honest and direct. He explains that he is wiser than others because he admits that he is ignorant. In order to spread this wisdom, he had to go against the grain of that thought. He is "an ignorant" in the truth of Athens admired him for his activities, but he earned hatred and anger from the people. He is referred to as a "gadfly" by the youth.

Socrates interrogates Meletus, the man who brought Socrates before the jury. This is the only time he cross-examines. But, in doing so, he is reminiscent of the parricide dialogue that got him in trouble in the first place. The method did not work. In this case, the jury found Socrates guilty and then given the chance to alter and change his ways, he refused to accept death, refusing to be a dishonest man.

The end part about Socrates' death is that one of the greatest philosophers of all times died without ever finding the knowledge he was seeking. To be fair, though, we now know that intelligence, bravery, cleverness, and artistic ability is a gray area and are in the middle of the spectrum. We still don't have definitive answers.

*Adoption of LMS in Higher Educational Institutions of the Middle East* Rashid A. Khan, Hassan Qudrat-Ullah, 2020-07-28  
This book discusses the adoption of learning management systems LMS in higher education institutions. It presents influential predictors that may impact instructors' behavioral intention to adopt learning management systems in the context of Arab culture as well as a unique model of technology acceptance that draws on and combines previous technology adoption models, i.e., a modified unified theory of acceptance and use of technology model (UTAUT2). Moreover, this study extends the UTAUT2 model by including Hofstede's 1980 cultural dimensions and technology awareness as the moderators of the model. It also describes the explanatory technique approach used to collect quantitative data from the instructors at higher education institutions in Saudi Arabia and were analyzed with structural equation modeling using SPSS Amos software. The findings revealed that facilitating conditions were the strongest predictor of behavioral intention to adopt an LMS, followed by performance expectancy and hedonic motivation. Technology awareness and cultural dimensions exerted a moderating influence on instructors' behavioral intention to use LMS in their teaching. By including new constructs, this becomes the first study of its kind exploring instructors' use of LMS in Higher Educational Institutions of Saudi Arabia and other countries of the Middle East. It offers practical insights for a broad range of researchers and professionals at higher education institutions and serves as a reference guide for designers of learning management systems, e.g., Blackboard systems, policymakers, and the Ministry of Education staff.
