Which words in the passage from the Declaration of Independence show the influence of the Enlightenment idea of natural law?

We hold these truths to be self-evident, that all men are created equal, and that they are endowed with their Creator with certain unalienable rights, that among these are life, liberty, and the pursuit of happiness. That, to secure these rights, governments are instituted among men, deriving their just powers from the consent of the governed. That, whenever any form of go - CCORRECT ANSWER-life, liberty, and the pursuit of happiness, unalienable rights, all men are created equal

Plato's Socrates, Philosophy and Education James M. Magrini,2017-12-01 This book develops for the readers Plato s Socrates non formalized philosophical practice of learning through questioning in the company of others In doing so the writer confronts Plato s Socrates in the words of John Dewey as the dramatic restless cooperatively inquiring philosopher of the dialogues whose view of education and learning is unique 1 It is focused on actively pursuing a form of philosophical understanding irreducible to truth of a propositional nature which defies transfer from practitioner to pupil 2 It embraces the perennial on the wayness of education and learning in that to interrogate the virtues or the good life through the practice of the dialectic is to continually renew the quest for a deeper understanding of things by returning to reevaluating and modifying the questions originally posed regarding the good life Indeed Socratic philosophy is a life of questioning those aspects of existence that are most question worthy and 3 It accepts that learning is a process guided and structured by dialectic inquiry and is already immanent within and possible only because of the unfolding of the process itself i e learning is not a goal that somehow stands outside the dialectic as its end product which indicates erroneously that the method or practice is disposable For learning occurs only through continued sustained communal dialogue

Studies in Plato's Metaphysics Reginald E. Allen,2012-09-10 Did Plato abandon or sharply modify the Theory of Forms in later life In the Phaedo Symposium and Republic it is generally agreed that Plato held that universals exist But in Parmenides he subjected that theory to criticism If the criticism were valid and Plato knew so then the Parmenides marks a turning point in his thought If however Plato became aware that there are radical differences in the logical behaviour of concepts and the later dialogues are a record of his attempt to analyse those differences then Plato s thought can be said to have moved in a new and vitally important direction after the Parmenides

Studies in Plato s Metaphysics brings together twenty essays by leading philosophers from the UK and the USA reflecting upon this important issue and upon the questions arising from it
