Play to Progress Allie Ticktin, 2021-07-06 A game changing book on child development and the importance of physical play for this digital and screen age For children to develop to their fullest potential their sensory system which in addition to the big five of sight hearing taste touch and smell includes movement and balance vestibular body awareness proprioception and internal perception interoception needs to be stimulated from the time they are born Their senses flourish when they explore their environment by touching new textures including their food running jumping climbing and splashing outside As an occupational therapist with a specialty in sensory integration Allie Ticktin has seen an increase in cases of children who struggle to sit in circle time or at their desk upright and who are delayed in walking talking

and playing by themselves and with their peers In the recent past kids spent their days playing outside and naturally engaging their sensory system and building key developmental skills But with increasing time pressures for both kids and parents children are spending more time in front of screens and less time exploring and interacting with their environment The good news is that boosting your child s sensory development doesn t take enormous amounts of time or supplies or any special skills Here Ticktin discusses the eight sensory systems and how a child uses them and offers easy fun activities as well as advice on setting up a play area that will encourage their development so that your little one will be better able to respond to their emotions build friendships communicate their needs and thrive in school That s the power of sensory play
