Hate Speech and Polarization in Participatory Society Marta Pérez-Escobar, José Manuel Noguera-Vivo, 2021-09-30

This timely volume offers a comprehensive and rigorous overview of the role of communication in the construction of hate speech and polarization in the online and offline arena. Delving into the meanings, implications, contexts, and effects of extreme speech and gated communities in the media landscape, the chapters analyse misleading metaphors and rhetoric via focused case studies to understand how we can overcome the risks and threats stemming from the past decade's defining communicative phenomena. The book brings together an international team of experts enabling a broad multidisciplinary approach that examines hate speech, dislike, polarization, and enclave deliberation as cross axes that influence offline and digital conversations. The diverse case studies herein offer insights into international news, media, television, drama, and social media in a range of contexts, suggesting an academic frame of reference for examining this emerging phenomenon within the field of communication studies. Offering thoughtful and much-needed analysis, this collection will be of great interest to scholars and students working in communication studies, media studies, journalism, sociology, political science, political communication, and cultural industries. [#HashtagActivism](#) Sarah J. Jackson, Moya Bailey, Brooke Foucault Welles, 2020-03-10

This well-researched, nuanced study of the rise of social media activism explores how marginalized groups use Twitter to advance counter narratives, preempt political spin, and build diverse networks of dissent. Ms. The power of hashtag activism became clear in 2011 when Iran Election served as an organizing tool for Iranians protesting a disputed election and offered a global audience a front row seat to a nascent revolution. Since then, activists have used a variety of hashtags including JusticeForTrayvon, BlackLivesMatter, YesAllWomen, and MeToo to advocate, mobilize, and communicate. In this book, Sarah Jackson, Moya Bailey, and Brooke Foucault Welles explore how and why Twitter has become an important platform for historically disenfranchised populations including Black Americans, women, and transgender people. They show how marginalized groups long excluded from elite media spaces have used Twitter hashtags to advance counter narratives, preempt political spin, and build diverse networks of dissent. The authors describe how such hashtags as MeToo, SurvivorPrivilege, and WhyIStayed have challenged the conventional understanding of gendered violence, examine the voices and narratives of Black feminism enabled by FastTailedGirls, YouOKSis, and SayHerName, and explore the creation and use of GirlsLikeUs, a network of transgender women. They investigate the digital signatures of the new civil rights movement, the online activism storytelling and strategy building that set the stage for BlackLivesMatter, and recount the spread of racial justice hashtags after the killing of Michael Brown in Ferguson, Missouri, and other high-profile incidents of killings by police. Finally, they consider a hashtag created by allies including AllMenCan and CrimingWhileWhite. *Hashtags and Trade Marks* Nazanin Aslani, 2024-02-12

This timely book examines the growing importance of hashtags both in online culture and within our digital society. Conducting a comparative analysis of legal strategies within the EU, Germany, and the United States, it aims

to ascertain whether a fair balance currently exists between freedom of expression and competition in the treatment of hashtags as trade marks

government's weak handling of the pandemic and the consequent economic fallout. Public frustration that manifested itself in the BenderaHitam BlackFlag and Lawan Protest movements soon transitioned into offline campaigns and protests against the government. Apart from political hashtag campaigns, there were also welfare movements such as KitaJagaKita WeTakeCareOfOurselves BenderaPutih WhiteFlag and RakyatJagaRakyat CitizensTakeCareOfCitizens which enabled Malaysians to help the less fortunate affected financially by the COVID 19 lockdowns by rendering food aid and other assistance. A key conclusion of this study is that online hashtag campaigns have served as an early warning of trending public sentiment. They also have the potential to hype up emotions online and subsequently galvanize support for offline campaigns and protests. As Lawan and BenderaHitam showed, these can have direct political outcomes.
