on footnotes on the language of the university job interview on the use of domesticate as a catch all negative term There are also essays on cultural questions informed by critical theory For instance why has the topic of walking been such a fruitful thinking theme in literature and philosophy How does the history of shopping and marketing theory intersect with those of literature and subjectivity How in the light of reproductive technologies and new social forms has becoming a parent turned into a culturally prominent kind of story These are some of the questions that arise in the interview and essays that make up Rachel Bowlby's book which derives from several decades of working and writing and talking and walking within the changing contemporary landscape of literary and critical studies Old and new arrivals into this world will find pleasures of reading and matter for thinking on every page
